The Restoration of Borobudur Unesco,2005 This publication traces the history and restoration of Chandi Borobudur, a Buddhist temple built over 1,000 years ago on the island of Java, Indonesia which was successfully restored during 1973-1983 and listed as a World Heritage Site in 1991. It covers the various aspects of the process, including the long and painstaking task of logging the position of the stones, the studies that revealed the underlying sources of decay, and the important archaeological finds that provided clues to the temple's spiritual past; and includes many of the original drawings and photographs taken from the restoration project archives.

Violence and Serenity Natasha Reichle,2007-07-26 The mention of Buddhism in Indonesia calls to mind for many people the Central Javanese monument of Borobudur, one of the largest Buddhist monuments in the world and the subject of extensive scholarly scrutiny. The neglect of scholarship on Buddhist art from later periods might lead one to assume that after the tenth century Buddhism had been completely eclipsed by the predominantly Hindu Eastern Javanese dynasties. Yet, as the works discussed here illustrate, extraordinary Buddhist images were still being produced as late as the fourteenth century. *Violence and Serenity* offers a close examination of some of the impressive works from East Java and Sumatra and explores their political and religious roles. The number of clearly identifiable Buddhist works from the Singasari and Majapahit dynasties (1222–ca. 1520) is limited, yet existing examples are impressive. They demonstrate a remarkable level of craftsmanship and are exceptionally expressive, exhibiting a range of emotions from the ferocious to the serene. Following a brief discussion of the early history of Buddhism in Indonesia, Natasha Reichle focuses each chapter on a specific statue or group of statues and considers the larger issues evoked by the images. Through a rarely examined depiction of the last Singasari king, she explores the nature of religion in Java in the late thirteenth century and what we know about tantric practices and the syncretism of Hinduism and Buddhism. She reassesses the question of portraiture in ancient Javanese art while contemplating the famous Prajñāpāramitā from Singasari. Notions of kingship are discussed in light of a number of statues depicting the Buddhist deity Amoghapāśa and his attendants and the meanings of the Amoghapāśa maṇḍala. The final chapter examines the origins and significance of one of Indonesia's most spectacular sculptures, a four-meter-high Buddhist bhairava (demon) discovered in West Sumatra.

Chinese Buddhism Chün-fang Yü,2020-06-30 What are the foundational scriptures and major schools for Chinese Buddhists? What divinities do they worship? What festivals do they celebrate? These are some of the basic questions addressed in this book, the first introduction to Chinese Buddhism written expressly for students and those interested in an accessible yet authoritative overview of the subject based on current scholarship. After presenting the basic tenets of the Buddha's teachings and the Chinese religious traditions, the book focuses on topics essential for understanding Chinese Buddhism: major scriptures, worship of buddhas and bodhisattvas, rituals and festivals, the monastic order, Buddhist schools such as Tiantai and Chan, Buddhism and gender, and current trends—notably humanistic Buddhism in Taiwan and the resurgence of Buddhism in post-Mao China. Each chapter ends with discussion questions and suggestions for further reading. A convenient glossary of common terms, titles, and names is included.

Buddha in the Crown John Clifford Holt,1991-01-31 Historical, anthropological, and philosophical in approach, *Buddha in the Crown* is a case study in religious and cultural change. It examines the various ways in which Avalokitesvara, the most well known and proliferated bodhisattva of Mahayana Buddhism throughout south, southeast, and east Asia, was assimilated into the transforming religious culture of Sri Lanka, one of the most pluralistic in Asia. Exploring the expressions of the bodhisattva's cult in Sanskrit and Sinhala literature, in iconography, epigraphy, ritual, symbol, and myth, the author develops a provocative thesis regarding the dynamics of religious change. Interdisciplinary in scope, addressing a wide variety of issues relating to Buddhist thought and practice, and providing new and original information on the rich cultural history of Sri Lanka, this book will interest students of Buddhism and South Asia.

Public Zen, Personal Zen Peter D. Hershock, Asian Studies Development Program,2014-03-14 This deeply informed book introduces the basic teachings and practices of Buddhism and their spread across Asia. Peter D. Hershock explores the history of the enduring Japanese tradition of Zen—from its beginnings as a form of Buddhist thought and practice imported from China to its reinvention in medieval Japan as a force for religious, political, and cultural change to its role in Japan's embrace of modernity. He deftly blends historical detail with the felt experiences of Zen practitioners grappling with the meanings of human suffering, personal freedom, and the integration of social and spiritual progress.

Man and His Symbols Carl G. Jung,2012-02-01 The landmark text about the inner workings of the unconscious mind—from the symbolism that unlocks the meaning of our dreams to their effect on our waking lives and artistic impulses—featuring more than a hundred images that break down Carl Jung's revolutionary ideas “What emerges with great clarity from the book is that Jung has done immense service both to psychology as a science and to our general understanding of man in society.”—The Guardian “Our psyche is part of nature, and its enigma is limitless.” Since our inception, humanity has looked to dreams for guidance. But what are they? How can we understand them? And how can we use them to shape our lives? There is perhaps no one more equipped to answer these

questions than the legendary psychologist Carl G. Jung. It is in his life’s work that the unconscious mind comes to be understood as an expansive, rich world just as vital and true a part of the mind as the conscious, and it is in our dreams—those personal, integral expressions of our deepest selves—that it communicates itself to us. A seminal text written explicitly for the general reader, *Man and His Symbols* is a guide to understanding the symbols in our dreams and using that knowledge to build fuller, more receptive lives. Full of fascinating case studies and examples pulled from philosophy, history, myth, fairy tales, and more, this groundbreaking work—profusely illustrated with hundreds of visual examples—offers invaluable insight into the symbols we dream that demand understanding, why we seek meaning at all, and how these very symbols affect our lives. By illuminating the means to examine our prejudices, interpret psychological meanings, break free of our influences, and recenter our individuality, *Man and His Symbols* proves to be—decades after its conception—a revelatory, absorbing, and relevant experience.

Candi, Space and Landscape Véronique Degroot,2009 Central Javanese temples were not built anywhere and anyhow. On the contrary: their positions within the landscape and their architectural designs were determined by socio-cultural, religious and economic factors. This book explores the correlations between temple distribution, natural surroundings and architectural design to understand how Central Javanese people structured the space around them, and how the religious landscape thus created, developed. Besides questions related to territory and landscape, Degroot's book analyzes the structure of the built space and its possible relations with conceptualized space, showing the influence of imported Indian concepts, as well as their limits. Going off the beaten track, this book explores the hundreds of small sites that scatter the landscape of Central Java. It is also one of very few studies to apply the methods of spatial archaeology to Central Javanese temples and the first in almost a century to present a descriptive inventory of the remains of this region.
