Practice-driven Research Tracey McDonald,2019-06-01 In this ground-breaking book, Professor Tracey McDonald, RSL LifeCare Chair of Ageing at the Australian Catholic University, explores some of the many issues arising from an ageing population, ageing veterans and community health. Many of the projects presented in the book have been awarded Better Practice Awards by the Australian Government and provide inspiration to aged care service providers keen to improve their services. Professor McDonald has developed 'practice-driven research', an approach that fully involves clinical nurses and carers in striving to understand the work they are doing, and to improve on it. This approach has been developed in collaboration with the clinical nurses, therapists and managers at RSL LifeCare, and addresses the issues of relevance and appropriateness of research in solving practical, day-to-day problems within the Aged Care setting. It will appeal to all involved with the aged care industry, particularly managers and leaders at all levels, and also bridges the theory-practice gap by providing an overview of practice-driven research for health sciences students within the Australian University environment.

Crash Course in Library Services to People with Disabilities Ann Roberts,Richard J. Smith,2010-03-23 This book helps libraries identify and implement new ways to serve their physically or mentally disabled patients. Authors Ann Roberts and Dr. Richard Smith work at the state level with persons with disabilities. They find that very few

librarians feel comfortable with providing services addressed to the needs of the disabled, yet those who do offer services and programs other libraries can adopt and adapt. *Crash Course in Library Services to People with Disabilities* will help librarians get up to speed in understanding disabled persons and what they can do to make library premises and holdings more accessible to them. It provides basic information on the different types of mental and physical disabilities a librarian might encounter, then offers a range of exemplary policies, services, and programs for people with disabilities—efforts that are in place and working across the country.
