Innovative Research and Practices in Second Language Acquisition and Bilingualism John W. Schwieter, 2013-08-15 This volume brings together theoretical perspectives and empirical studies in second language (L2) acquisition and bilingualism and discusses their implications for L2 pedagogy. The book is organized into three sections that focus on prominent linguistic and cognitive theories and together provide a compelling set of state-of-the-art works. Part I consists of studies that give rise to innovative applications for second language teaching and learning and Part II discusses how findings from cognitive research can inform practices for L2 teaching and learning. Following these two sections, Part III provides a summative commentary of the theories explored in the volume along with suggestions for future research directions. The book is intended to act as a valuable reference for scholars, applied linguists, specialists in pedagogy, language educators, and anyone wishing to gain an overview of current issues in SLA and bilingualism.

Universal Grammar and the Second Language Classroom Melinda Whong, Kook-Hee Gil, Heather Marsden, 2013-06-26 This book proposes that research into generative second language acquisition (GenSLA) can be applied to the language classroom. Assuming that Universal Grammar plays a role in second language development, it explores generalisations from GenSLA research. The book aims to build bridges between the fields of generative second language acquisition, applied linguistics, and language teaching; and it shows how GenSLA is poised to engage with researchers of second language learning outside the generative paradigm. Each chapter of *Universal Grammar and the Second Language Classroom* showcases ways in which GenSLA research can inform language pedagogy. Some chapters include classroom research that tests the effectiveness of teaching particular linguistic phenomena. Others review existing research findings, discussing how these findings are useful for language pedagogy. All chapters show how generative linguistics can enhance teachers' expertise in language and second language development. "This groundbreaking volume ably takes on the gap that currently exists between generative linguistic theory in second language acquisition (GenSLA) and second language pedagogy, by gathering chapters from GenSLA researchers who are interested in the relevance and potential application of their research to second/foreign language teaching. It offers a welcome and thought-provoking contribution to any discussion of the relation between linguistic theory and practice. I recommend it not only for language teachers interested in deepening their understanding of the formal properties of the languages they teach, but also for linguists interested in following up on more practical consequences of the fruits of their theoretical and empirical research." Donna Lardiere, Georgetown University, Washington DC, USA

**Hola, Amigos!** Ana C. Jarvis, Raquel Lebrede, Francisco Mena-Ayllón, 2001 [The book] is a complete, flexible program designed for beginning college and university students. It presents the basic grammar of Spanish using a balanced, eclectic approach that stresses all four skills: listening, speaking, reading, and writing. Because the program emphasizes the active, practical use of Spanish for communication in high-frequency situations, a special effort has been made to provide up-to-date, practical insights into the cultural diversity of the contemporary Spanish-speaking world. The program's goal is to help learners achieve linguistic proficiency and cultural awareness, and to motivate them to continue their study of the Spanish language and the many cultures in which it is spoken.-Pref.

The Jaguar's Children John Vaillant, 2015-01-27 This "extraordinary" novel of one man's border crossing reveals "a human history of sorrow and suffering, all of it beginning with the thirst to be free" (NPR). Héctor is trapped. The water truck, sealed to hide its human cargo, has broken down. The coyotes have taken all the passengers' money for a mechanic and have not returned. Héctor finds a name in his friend César's phone: AnniMac. A name with an American number. He must reach her, both for rescue and to pass along the message César has come so far to deliver. But are his messages going through? Over four days, as water and food run low, Héctor tells how he came to this desperate

place. His story takes us from Oaxaca—its rich culture, its rapid change—to the dangers of the border, exposing the tangled ties between Mexico and El Norte. And it reminds us of the power of storytelling and the power of hope, as Héctor fights to ensure his message makes it out of the truck and into the world. Both an outstanding suspense novel and an arresting window into the relationship between two great cultures, *The Jaguar’s Children* shows how deeply interconnected all of us are. “This is what novels can do—illuminate shadowed lives, enable us to contemplate our own depths of kindness, challenge our beliefs about fate. Vaillant’s use of fact to inspire fiction brings to mind a long list of powerful novels from the past decade or so: *What is the What* by Dave Eggers; *The Map of Love* by Ahdaf Soueif; *The Storyteller* by Jodi Picoult.” —Amanda Eyre Ward, *The New York Times Book Review* “[A] heartbreaker . . . Wrenching . . . with a voice fresh and plangent enough to disarm resistance.” —*The Boston Globe* “Fearless.” —*The Globe and Mail*

*The Death of Josseline* Margaret Regan, 2010-10-13 Dispatches from Arizona—the front line of a massive human migration—including the voices of migrants, Border Patrol, ranchers, activists, and others For the last decade, Margaret Regan has reported on the escalating chaos along the Arizona-Mexico border, ground zero for immigration since 2000. Undocumented migrants cross into Arizona in overwhelming numbers, a state whose anti-immigrant laws are the most stringent in the nation. And Arizona has the highest number of migrant deaths. Fourteen-year-old Josseline, a young girl from El Salvador who was left to die alone on the migrant trail, was just one of thousands to perish in its deserts and mountains. With a sweeping perspective and vivid on-the-ground reportage, Regan tells the stories of the people caught up in this international tragedy. Traveling back and forth across the border, she visits migrants stranded in Mexican shelters and rides shotgun with Border Patrol agents in Arizona, hiking with them for hours in the scorching desert; she camps out in the thorny wilderness with No More Deaths activists and meets with angry ranchers and vigilantes. Using Arizona as a microcosm, Regan explores a host of urgent issues: the border militarization that threatens the rights of U.S. citizens, the environmental damage wrought by the border wall, the desperation that compels migrants to come north, and the human tragedy of the unidentified dead in Arizona’s morgues.
