**Chaos** Tom O'Neill, 2019-06-25 A journalist's twenty-year fascination with the Manson murders leads to gobsmacking (The Ringer) new revelations about the FBI's involvement in this kaleidoscopic (The New York Times) reassessment of an infamous case in American history. Over two grim nights in Los Angeles, the young followers of Charles Manson murdered seven people, including the actress Sharon Tate, then eight months pregnant. With no mercy and seemingly no motive, the Manson Family followed their leader's every order -- their crimes lit a flame of paranoia across the nation, spelling the end of the sixties. Manson became one of history's most infamous criminals, his name forever attached to an era when charlatans mixed with prodigies, free love was as possible as brainwashing, and utopia -- or dystopia -- was just an

acid trip away. Twenty years ago, when journalist Tom O'Neill was reporting a magazine piece about the murders, he worried there was nothing new to say. Then he unearthed shocking evidence of a cover-up behind the official story, including police carelessness, legal misconduct, and potential surveillance by intelligence agents. When a tense interview with Vincent Bugliosi -- prosecutor of the Manson Family and author of *Helter Skelter* -- turned a friendly source into a nemesis, O'Neill knew he was onto something. But every discovery brought more questions: Who were Manson's real friends in Hollywood, and how far would they go to hide their ties? Why didn't law enforcement, including Manson's own parole officer, act on their many chances to stop him? And how did Manson -- an illiterate ex-con -- turn a group of peaceful hippies into remorseless killers? O'Neill's quest for the truth led him from reclusive celebrities to seasoned spies, from San Francisco's summer of love to the shadowy sites of the CIA's mind-control experiments, on a trail rife with shady cover-ups and suspicious coincidences. The product of two decades of reporting, hundreds of new interviews, and dozens of never-before-seen documents from the LAPD, the FBI, and the CIA, *Chaos* mounts an argument that could be, according to Los Angeles Deputy District Attorney Steven Kay, strong enough to overturn the verdicts on the Manson murders. This is a book that overturns our understanding of a pivotal time in American history.

**The Traders' War** Charles Stross,2014-01-07 *The Traders' War* -- an omnibus edition of the third and fourth novels in Charles Stross's *Merchant Princes* series. Miriam was an ambitious business journalist in Boston. Until she was fired--then discovered, to her shock, that her lost family comes from an alternate reality. And although some of them are trying to kill her, she won't stop digging up secrets. Now that she knows she's inherited the family ability to walk between worlds, there's a new culture to explore. Her alternate home seems located around the Middle Ages, making her world-hopping relatives top dogs when it comes to importing guns and other gadgets from modern-day America. Payment flows from their services to U.S. drug rings--after all, world-skipping drug runners make great traffickers. In a land where women are property, she struggles to remain independent. Yet her outsider ways won't be tolerated, and a highly political arranged marriage is being brokered behind her back. If she can stay alive for long enough to protest. These books are immense fun.--Locus At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

**Some Assembly Required** George Bradley, 2021-04-21 George Bradley, whose previous work has drawn praise from James Merrill and Harold Bloom, here meditates on contemporary culture, on the natural world and the world imagined, and on the life of the poet. Whether he is standing in line at the SuperSave, where tabloids beckon, or contemplating the change of seasons in a classic sonnet sequence, Bradley juxtaposes the sublime workings of the mind with the mundane static that surrounds it. What he finds in this conjunction is a surprising beauty, a uniquely contemporary formal music, and, often, a curative dose of humor. Even verse itself is not exempt from his clarifying view, as he proves in "How I Got in the Business," a wild ride through several sorts of commerce, including the poetry trade. Throughout *Some Assembly Required*, Bradley savors both the riveting accident of everyday life and the long view afforded by art, in poetry that is taut, witty, and dynamic.

Diplomatic Implausibility Keith R. A. DeCandido, 2012-08-14 In the aftermath of the Dominion War, the Klingon cruiser IKS Gorkon is on its way back to the homeworld when it is diverted by a distress call... It is two hundred years since the expanding Klingon Empire discovered an icy planet rich in a valuable mineral, topaline. They named the planet 'taD' - Klingon for 'frozen' - and called its people 'jeghpu'wl' - conquered. It is four years since the Klingon Empire invaded Cardassia, breaching the Khitomer Accords and causing a diplomatic rift with the Federation. On taD, depleted Klingon forces were overthrown in a coup d'etat, and the victorious rebels took advantage of the disruption to appeal for recognition to the Federation. Now the Klingons have returned to taD and re-established their control. But the stubborn rebels insist on Federation recognition. A solution to the impasse must be found: a task that falls to the Federation's new ambassador to the Klingon Empire. Worf regards himself as a fighter, not a diplomat. But the Federation disagrees. Now, for the sake of the Empire, Worf must somehow forge a peace between the hardened rebels and the battle-hungry Klingon forces. And as everyone knows, Klingons do not negotiate...

*Typeset in the Future* Dave Addey, 2018-12-11 A designer's deep dive into seven science fiction films, filled with "gloriously esoteric nerdery [and] observations as witty as they are keen" (Wired). In *Typeset in the Future*, blogger and designer Dave Addey invites sci-fi movie fans on a journey through seven genre-defining classics, discovering how they create compelling visions of the future through typography and design. The book delves deep into *2001: A Space Odyssey*, *Star Trek: The Motion Picture*, *Alien*, *Blade Runner*, *Total Recall*, *WALL·E*, and *Moon*, studying the design tricks and inspirations that make each film transcend mere celluloid and become a believable reality. These studies are illustrated by film stills, concept art, type specimens, and ephemera, plus original interviews with Mike Okuda (*Star Trek*), Paul Verhoeven (*Total Recall*), and Ralph Eggleston and Craig Foster (Pixar). *Typeset in the Future* is an obsessively geeky study of how classic sci-fi movies draw us in to their imagined worlds.

**Remote Viewers** Jim Schnabel, 2011-04-20 *Remote Viewers* is a tale of the Pentagon's attempts to develop the perfect tool for espionage: psychic spies. These psychic spies, or remote viewers, were able to infiltrate any target, elude any form of security, and never risk scratch. For twenty years, the government selected civilian and military personnel for psychic ability, trained them, and put them to work, full-time, at taxpayers' expense, against real intelligence targets. The results were so astonishing that the program soon involved more than a dozen separate agencies, including the CIA, the Defense Intelligence Agency, the National Security Council, the FBI, the National Security Agency, the Secret Service, the Navy, the Army, the Air Force, the Joint Chiefs of Staff, the Drug Enforcement Agency, the US Customs Service, the US Special Forces Command, and at least one Pentagon drug-interaction task force. Most of this material is still officially classified. After three years of research, with access to numerous sources in the intelligence community--including the remote viewers themselves--science writer Jim Schnabel reveals the secret details of the strangest chapter in the history of espionage.

*The Men on Magic Carpets* Ed Hawkins, 2019-04-04 'An absolute gem. Funny, incredible and brilliantly reported, in Ed Hawkins the sports world has its own Jon Ronson.' - Will Storr The bizarre true story about the cosmic side of sports Ever wondered if the mind tricks used by Luke Skywalker or his Star Wars brethren were real? Ed Hawkins did. A Jedi-wannabe and sports nut, he pondered: what if a coach or athlete had tried to harness such mysterious powers? They would be unstoppable. This set Ed off on an extraordinary adventure across the West Coast of America in search of a superhuman sports star. He discovers cosmic thinkers who, back in their 1960s heyday, believed that through the power of thought alone a superhuman could be created. One that could see into the future, slow down time and control minds. So successful were their tactics that they attracted the attention of the US government. Meanwhile in Russia their Soviet counterparts were employing equally bewildering brain power. Their goal? To win the Cold War. And so from the 1970s and into the Eighties the underground free-thinking movement became a fully-funded state secret in an 'inner space race' between the US and the

Soviet Union. Both sides attempting to create the perfect human killing machine. It worked. Sort of. Instead of building a super soldier, the mystics from both sides came together to preach peace and love to their political paymasters. After the thaw, the search for the superhuman sports star began again and continues to this day. In *The Men on Magic Carpets* Ed goes deep into a secret network of supernatural sages and is told about a mysterious American football coach who made it to the top by teaching his players *The Force*. But can he be found? Will he admit to what he truly believes? And how does our intrepid author cope with his own brush with the Dark Side as the shadowy military once again attempt to use the mystical powers for ill?
