The Fairyland Series Catherynne M. Valente, 2014-11-18

The Fairyland Series (Books 1-3): The Girl Who Circumnavigated Fairyland in a Ship of Her Own Making, The Girl Who Fell Beneath Fairyland and Led the Revels There, and The Girl Who Soared Over Fairyland and Cut the Moon in Two One of the most extraordinary works of fantasy, for adults or children, published so far this century—Time magazine, on the Fairyland series Twelve-year-old September lives in Omaha, and used to have an ordinary life, until her father went to war and her mother went to work. One day, September is met at her kitchen window by a Green Wind (taking the form of a gentleman in a green jacket) who invites her on an adventure, implying that her help is needed in Fairyland. . . . Perfect for fans new to the series, the first three books of Catherynne M. Valente's Fairyland Series are available together in this bundle. The Girl Who Circumnavigated Fairyland in a Ship of Her Own Making: Upon arriving in Fairyland, September learns the new Marquess is unpredictable and fickle, and also not much older than she is. Only September can retrieve a talisman the Marquess wants from the enchanted woods, and if she doesn't . . . then the Marquess will make life impossible for the inhabitants of Fairyland. The Girl Who Fell Beneath Fairyland and Led the Revels There: September has longed to return to Fairyland after her first adventure there. And when she finally does, she learns that its inhabitants have been losing their shadows—and their magic—to the world of Fairyland Below. This underworld has a new ruler: Halloween, the Hollow Queen, who is September's shadow. And Halloween does not intend to give Fairyland's shadows back. The Girl Who Soared Over Fairyland and Cut the Moon in Two: September misses Fairyland and her friends Ell, the Wyverary, and the boy

Saturday. She longs to leave the routines of home and embark on a new adventure. Little does she know that this time, she will be spirited away to the moon, reunited with her friends, and find herself faced with saving Fairyland from a Moon-Yeti with great and mysterious powers.

One Degree of Change Larry Jackson, 2015-01-23 This book was written for the person who understands that there is so much more for them to accomplish but just can't seem to breakthrough. One of the traps in life is being satisfied with a 211 degree life. This is a very good life and many would characterize it as a successful life. But for the person who should be living at 212 degrees they feel like the oyster with sand in its shell, very agitated. Many times they can't put their finger on what is wrong or what is needed. Even the Christian living a good life before God can feel that something is missing. The thing missing is their purpose. They love the Lord and all that He provides but they realize there is more they should be doing for Him. If you feel like you are not walking in your purpose then this is the book for you! **One Degree of Change: How to Succeed Now!** will open your heart and mind to just how close you really are to accomplishing what the Lord has designed you for. It will provide much needed answers for your advancement. Because you are only one degree from the success you desire.

Monsters of Film, Fiction, and Fable Lisa Wenger Bro, Mary Ann Gareis, Crystal O'Leary-Davidson, 2018-07-27 Monsters are a part of every society, and ours is no exception. They are deeply embedded in our history, our mythos, and our culture. However, treating them as simply a facet of children's stories or escapist entertainment belittles their importance. When examined closely, we see that monsters have always represented the things we fear: that which is different, which we can't understand, which is

dangerous, which is Other. But in many ways, monsters also represent our growing awareness of ourselves and our changing place in a continually shrinking world.

Contemporary portrayals of the monstrous often have less to do with what we fear in others than with what we fear about ourselves, what we fear we might be capable of. The nineteen essays in this volume explore the place and function of the monstrous in a variety of media – stories and novels like Baum’s Oz books or Gibson’s *Neuromancer*; television series and feature films like *The Walking Dead* or *Edward Scissorhands*; and myths and legends like Beowulf and The Loch Ness Monster – in order to provide a closer understanding of not just who we are and who we have been, but also who we believe we can be – for better or worse.

The Bold World Jodie Patterson, 2019-01-29 Inspired by her transgender son, activist Jodie Patterson explores identity, gender, race, and authenticity to tell the real-life story of a family’s history and transformation. “A courageous and poetic testimony on family and the self, and the learning and unlearning we must do for those we love.”—Janet Mock In 2009, Jodie Patterson, mother of five and beauty entrepreneur, has her world turned upside down when her determined toddler, Penelope, reveals, “Mama, I’m not a girl. I am a boy.” The Pattersons are a tribe of unapologetic Black matriarchs, scholars, financiers, Southern activists, artists, musicians, and disruptors, but with Penelope’s revelation, Jodie realizes her existing definition of family isn’t wide enough for her child’s needs. In *The Bold World*, we witness Patterson reshaping her own attitudes, beliefs, and biases, learning from her children, and a whole new community, how to meet the needs of her transgender son. In doing so, she opens the minds of those who raised and fortified her, all the while challenging

cultural norms and gender expectations. Patterson finds that the fight for racial equality in which her ancestors were so prominent helped pave the way for the current gender revolution. From Georgia to South Carolina, Ghana to Brooklyn, Patterson learns to remove the division between me and you, us and them, straight and queer—and she reminds us to celebrate her uncle Gil Scott Heron’s prophecy that the revolution will not be televised. It will happen deeply, unequivocally, inside each and every one of us. Transition, we learn, doesn’t just belong to the transgender person. Transition, for the sake of knowing more and becoming more, is the responsibility of and gift to all. The Bold World is the result, an intimate and exquisite story of authenticity, courage, and love. Praise for The Bold World “In The Bold World, Jodie Patterson makes a case for respecting everyone’s gender identity by way of showing how she came to accept her son, Penelope. In tying that struggle to the struggle for race rights in this country during her own childhood, she paints a vivid picture of the permanent work of social justice.”—Andrew Solomon, bestselling author of The Noonday Demon and Far from the Tree

Cohomological and Geometric Approaches to Rationality Problems Fedor Bogomolov, Yuri Tschinkel, 2009-11-03
Rationality problems link algebra to geometry, and the difficulties involved depend on the transcendence degree of K over k , or geometrically, on the dimension of the variety. A major success in 19th century algebraic geometry was a complete solution of the rationality problem in dimensions one and two over algebraically closed ground fields of characteristic zero. Such advances has led to many interdisciplinary applications to algebraic geometry. This comprehensive book consists of surveys of research papers by leading specialists in the field and gives indications for

future research in rationality problems. Topics discussed include the rationality of quotient spaces, cohomological invariants of quasi-simple Lie type groups, rationality of the moduli space of curves, and rational points on algebraic varieties. This volume is intended for researchers, mathematicians, and graduate students interested in algebraic geometry, and specifically in rationality problems. Contributors: F. Bogomolov; T. Petrov; Y. Tschinkel; Ch. Böhning; G. Catanese; I. Cheltsov; J. Park; N. Hoffmann; S. J. Hu; M. C. Kang; L. Katzarkov; Y. Prokhorov; A. Pukhlikov

A New Culture of Learning Douglas Thomas, John Seely Brown, 2011 The twenty-first century is a world in constant change. In *A New Culture of Learning*, Doug Thomas and John Seely Brown pursue an understanding of how the forces of change, and emerging waves of interest associated with these forces, inspire and invite us to imagine a future of learning that is as powerful as it is optimistic. Typically, when we think of culture, we think of an existing, stable entity that changes and evolves over long periods of time. In *A New Culture*, Thomas and Brown explore a second sense of culture, one that responds to its surroundings organically. It not only adapts, it integrates change into its process as one of its environmental variables. By exploring play, innovation, and the cultivation of the imagination as cornerstones of learning, the authors create a vision of learning for the future that is achievable, scalable and one that grows along with the technology that fosters it and the people who engage with it. The result is a new form of culture in which knowledge is seen as fluid and evolving, the personal is both enhanced and refined in relation to the collective, and the ability to manage, negotiate and participate in the world is governed by the play of the imagination. Replete with stories, this is a book that looks at the challenges that our education and learning

environments face in a fresh way. PRAISE FOR A NEW CULTURE OF LEARNING A provocative and extremely important new paradigm of a 'culture of learning', appropriate for a world characterized by continual change. This is a must read for anyone interested in the future of education. James J. Duderstadt, President Emeritus, University of Michigan Thomas and Brown are the John Dewey of the digital age. Cathy Davidson, Professor of Interdisciplinary Studies, Duke University A New Culture of Learning may provide for the digital media and learning movement what Thomas Paine's Common Sense did for the colonists during the American Revolution- a straightforward, direct explanation of what we are fighting for and what we are fighting against. Henry Jenkins, Provost's Professor, USC A New Culture of Learning is at once persuasive and optimistic - a combination that is all too rare, but that flows directly from its authors' insights about learning in the digital age. Pearls of wisdom leap from almost every page. Paul Courant, Dean of Libraries, University of Michigan Brilliant. Insightful. Revolutionary. Marcia Conner, author of The New Social Learning Douglas Thomas and John Seely Brown portray the new world of learning gracefully, vividly, and convincingly. Howard Gardner, Professor, Harvard Graduate School of Education Thomas and Brown make it clear that education is too often a mechanistic, solo activity delivered to the young. It doesn't have to be that way- learning can be a messy, social, playful, embedded, constant activity. We would do well to listen to their message. Clay Shirky, author of Cognitive Surplus Anyone who fears, as I do, that today's public schools are dangerously close to being irrelevant must read this book. The authors provide a road map-and a lifeline-showing how schools can prosper under the most difficult conditions. It is a welcome departure from all the school bashing. John

Merrow, Education Correspondent, PBS NewsHour American education is at a crossroads. By illuminating how play helps to transform both information networks and experimentation, and how collective inquiry unleashes the power of imagination, *A New Culture of Learning* provides an irresistible path to the future. Joel Myerson, Director, Forum for the Future of Higher Education.

The Body Broken Lynne Greenberg, 2009-03-24 In the tradition of William Styron's tour de force *Darkness Visible*, *The Body Broken* is a gorgeously told and intensely moving account of one woman's extraordinary odyssey into a life of chronic pain—and of the unyielding resilience of the human spirit. At age nineteen, Lynne Greenberg narrowly survived a devastating car crash. When her broken neck healed—or so everyone thought—her recovery was hailed as a medical miracle and she returned to normal life. Years later, she seemed to have it all: a loving husband, two wonderful children, a peaceful home, and a richly satisfying job as a tenured poetry professor. Then, one morning, this blissful façade shattered—the pain in her neck returned in the most vicious way. A life with physical agony ensued. Greenberg realized that she had been living for years on borrowed time. As she and her family navigated an increasingly complicated web of doctors and specialists, Greenberg taught herself to fight her own battles—against a medical system ill-equipped to handle patients with chronic pain, and against the emotional pitfalls of a newly restricted life. Drawing on her family's support, her own indomitable spirit, and an intense connection to the poetry she taught, Greenberg found the strength to return to a productive and satisfying—if irrevocably changed—life. This deeply personal

saga takes us to the heart of a family's struggle to survive a crisis, and shows us how, at the most profound levels, such an odyssey affects a patient's marriage, the ability to parent, family, work, and friendships. The Body Broken is a powerful, lyrical story of one woman's remarkable determination and breathtaking courage, as she puts mind over matter in the struggle to reclaim her life.

The last three sections offer an overview of genres, national cinemas and film movements around the world.

North Arrow Dennis Barone, 2008 Fiction. These seventeen stories ranging in length from a single paragraph to fifty pages explore issues of voice and silence, identity and its erasure in a style that is often poetic, frequently dark and somber, and occasionally humorous. From many different narrative perspectives, the author offers a jeremiad of sorts, urging readers to examine their own virtues and vices before venerating or condemning others. The title story, for example, describes the difficulties faced by a young woman veterinarian in the Netherlands. Not all of her problems originate with the men she meets who are

skeptical about a woman's ability to work with large farm animals. In this bildungsroman of thematic oppositions-- youth / age, elite / working class / north / south, city / country, male / female--the protagonist, Jacqueline, must come to know herself before she can exude the confidence she needs in her work and her life. The author doesn't let himself off the hook, either. In an autobiographical narrative, Northfield, he discusses the inability to remember and the partial failures that result from this shortcoming. Shorter pieces in the book in various ways illustrate a number of human foibles and follies that spring from the limitations of knowledge and recall. Other books by Dennis Barone include *PRECISE MACHINE*, *THE WALLS OF CIRCUMSTANCE*, and *TEMPLE OF THE RAT*.

Social Media and the 2008 U. S. Presidential Election Emily Metzgar, Albert Maruggi, 2009-10 The 2008 U.S. presidential campaign offered a unique opportunity to evaluate the usefulness and applicability of social media technology in the American political environment. This study's assessment of the role that social media played during the 2008 U.S. presidential campaign confirms some widely held tenets of conventional wisdom about social media, but it also indicates that the role of social media as the new sine qua non of American politics is far from certain.
