Beyond Mobility Robert Cervero, Erick Guerra, Stefan AI, 2017-12-05 *Beyond Mobility* also seeks to rethink how projects are planned and designed in cities and suburbs at multiple geographic scales, from micro-designs such as parklets to corridors and city-regions. The book closes with a reflection on the opportunities and challenges in moving beyond mobility, with attention to emerging technologies such as self-driving cars and ride-hailing services and social equity topics such as accessibility, livability, and affordability.

Modelling Transport Juan de Dios Ortúzar, Luis G. Willumsen, 2011-05-03 Already the market leader in the field, *Modelling Transport* has become still more indispensable following a thorough and detailed update. Enhancements include two entirely new chapters on modelling for private sector projects and on activity-based modelling; a new section on dynamic assignment and micro-simulation; and sizeable updates to sections on disaggregate modelling and stated preference design and analysis. It also tackles topical issues such as valuation of externalities and the role of GPS in travel time surveys. Providing unrivalled depth and breadth of coverage, each topic is approached as a modelling exercise with discussion of the roles of theory, data, model specification, estimation, validation and application. The authors present the state of the art and its practical application in a pedagogic manner, easily understandable to both students and practitioners. Follows on from the highly successful third edition universally acknowledged as the leading text on transport modelling techniques and applications. Includes two new chapters on modelling for private sector projects and activity based modeling, and numerous updates to existing chapters. Incorporates treatment of recent issues and concerns like risk analysis and the dynamic interaction between land use and transport. Provides comprehensive and rigorous information and guidance, enabling readers to make practical use of every available technique. Relates the topics to new external factors and technologies such as global warming, valuation of externalities and global positioning systems (GPS).

Heavy Metal Islam Mark LeVine, 2022-09-13 This updated reissue of Mark LeVine's acclaimed, revolutionary book on sub- and countercultural music in the Middle East brings this groundbreaking portrait of the region's youth cultures to a new generation. Featuring a new preface by the author in conversation with the band The Kominas about the problematic connections between extreme music and Islam. An eighteen-year-old Moroccan who loves Black Sabbath. A twenty-two-year-old rapper from the Gaza Strip. A young Lebanese singer who quotes Bob Marley's "Redemption Song." Heavy metal, punk, hip-hop, and reggae are each the music of protest, and are considered immoral by many in the Muslim world. As the young people and subcultures featured in Mark LeVine's *Heavy Metal Islam* so presciently predicted, this music turned out to be the soundtrack of countercultures, uprisings, and even revolutions from Morocco to Pakistan. In *Heavy Metal Islam*, originally published in 2008, Mark LeVine explores the influence of Western music on the Middle East and North Africa through interviews with musicians and fans, introducing us to young people struggling to reconcile their religion with a passion for music and a thirst for change. The result is a revealing tour de force of contemporary cultures across the Muslim majority world through the region's evolving music scenes that only a musician, scholar, and activist with LeVine's unique breadth of experience could narrate. A *New York Times* Editor's Pick when it was first published, *Heavy Metal Islam* is a surprising, wildly entertaining foray into a historically authoritarian region where music reveals itself to be a true democratizing force—and a groundbreaking work of scholarship that pioneered new forms of research in the region.

Proceedings of the Art and Design International Conference (AnDIC 2016) Rusmadiyah Anwar, Mulyadi Mahamood, D'zul Haimi Md. Zain, Mohamad Kamal Abd Aziz, Oskar Hasdinor Hassan, Shahrman Zainal Abidin, 2018-06-18 This book of conference proceedings contains papers presented at the Art and Design International Conference (AnDIC 2016). It examines the impact of Cyberology, also known as Internet Science, on the world of art and design. It looks at how the rapid growth of Cyberology and the creation of various applications and devices have influenced human relationships. The book discusses the impact of Cyberology on the behaviour, attitudes and perceptions of users, including the way they work and communicate. With a strong focus on how the Cyberology world influences and changes the methods and works of artists, this book features topics that are relevant to four key players - artists, intermediaries, policy makers, and the audience - in a cultural system, especially in the world of art and design. It examines the development, problems and issues of traditional cultural values, identity and new trends in contemporary art. Most importantly, the book attempts to discuss the past, present and future of art and design whilst looking at some underlying issues that need to be addressed collectively.

Architectures of Display Anca I. Lasc, Patricia Lara-Betancourt, Margaret Maile Petty, 2017-09-11 Through an international range of case studies from the 1870s to the present, this volume analyzes strategies of display in department stores and modern retail spaces. Established scholars and emerging researchers working within a range of disciplinary contexts and historiographical traditions shed light on what constitutes modern retail and the ways in which interior designers, architects, and artists have built or transformed their practice in response to the commercial context.

Parking Policy in Asian Cities Paul Barter, 2011-07-01 Most Asian cities are facing an acute parking crisis as a result of rapid urbanization and

motorization, and high urban densities. Parking policy is an important component of a holistic approach to sustainable urban transport across the region. The report provides an international comparative perspective on parking policy in Asian cities, while highlighting the nature of the policy choices available. It is a step in building a knowledge base to address the knowledge gap on parking and the lack of adequate guidance for parking policy in Asia.

Transforming Cities with Transit Hiroaki Suzuki,Robert Cervero,Kanako Iuchi,2013-01-22 'Transforming Cities with Transit' explores the complex process of transit and land-use integration and provides policy recommendations and implementation strategies for effective integration in rapidly growing cities in developing countries.

Integrated Management Systems Marek Bugdol,Piotr Jedynek,2014-08-16 Examining the challenges of integrated management, this book explores the importance and potential benefits of using an integrated approach as a cross-functional concept of management. It covers not only standardized management systems (e.g. International Organization for Standardization), but also models of self-assessment, as well as different types of integration. Furthermore, it demonstrates how processes and systems can be integrated, and how management efficiency can be increased. The major part of this book focuses on management concepts which use integration as a key tool of management processes (e.g. the systematic approach, supply chain management, virtual and network organizations, processes management and total quality management). Case studies, illustrations, and tables are also provided to exemplify and illuminate the content, as well as examples of successful and failed integrations. Providing a particularly useful resource to managers and specialists involved in the improvement of organizational performance, this book is also intended for top managers, functional managers, project managers, specialists, consultants, and those who wish to improve the efficiency and effectiveness of management. It also offers a helpful guide to academics and students interested in quality and risk management.

Cities of Light Sandy Isenstadt,Margaret Maile Petty,Dietrich Neumann,2014-12-17 Cities of Light is the first global overview of modern urban illumination, a development that allows human wakefulness to colonize the night, doubling the hours available for purposeful and industrious activities. Urban lighting is undergoing a revolution due to recent developments in lighting technology, and increased focus on sustainability and human-scaled environments. Cities of Light is expansive in coverage, spanning two centuries and touching on developments on six continents, without diluting its central focus on architectural and urban lighting. Covering history, geography, theory, and speculation in urban lighting, readers will have numerous points of entry into the book, finding it easy to navigate for a quick reference and or a coherent narrative if read straight through. With chapters written by respected scholars and highly-regarded contemporary practitioners, this book will delight students and practitioners of architectural and urban history, area and cultural studies, and lighting design professionals and the institutional and municipal authorities they serve. At a moment when the entire world is being reshaped by new lighting technologies and new design attitudes, the longer history of urban lighting remains fragmentary. Cities of Light aims to provide a global framework for historical studies of urban lighting and to offer a new perspective on the fast-moving developments of lighting today.

Building Evaluation Wolfgang F.E. Preiser,2013-12-14 This book is about building evaluation in the broadest sense and it transcends the meaning and conventional boundaries of the evolving field of post-occupancy evaluation by focusing on evaluation throughout the building delivery process. This process is seen not just as being linear with a product in mind, i. e. , the completed and occupied building, but rather, it is seen as a cyclic evolution which has as its goal the continuous improvement of the quality of buildings. This goal can only be accomplished if evaluation occurs throughout the building delivery process, and if: 1. the evaluation that does occur is systematic and rigorous, 2. the data that is obtained can be fed into data bases and clearinghouses for use in future generations of buildings, and; 3. there is continuity in information flow. The idea for this book originated with a symposium that was part of a conference held at the Technical University in Delft, Netherlands, in July of 1988, i. e. , IAPS 10, the tenth biannual conference of the International Association for the Study of People and their Physical Surroundings. Authors presented papers based on their book chapters, and discussions ensued about the expanded boundaries of the field, about theoretical, methodological, and practical issues, as well as applications in building evaluation. Other relevant topics were identified and several additional authors were invited to participate in order to round out the contents of this book.

Lacan at the Scene Henry Bond, 2012-09-21 A Lacanian approach to murder scene investigation. What if Jacques Lacan—the brilliant and eccentric Parisian psychoanalyst—had worked as a police detective, applying his theories to solve crimes? This may conjure up a mental film clip starring Peter Sellers in a trench coat, but in *Lacan at the Scene*, Henry Bond makes a serious and provocative claim: that apparently impenetrable events of violent death can be more effectively unraveled with Lacan's theory of psychoanalysis than with elaborate, technologically advanced forensic tools. Bond's exposition on murder expands and develops a resolutely *Lacanian* approach. Seeking out radical and unexpected readings, Bond unpacks his material utilizing Lacan's neurosis-psychosis-perversion grid. Bond places Lacan at the crime scene and builds his argument through a series of archival crime scene photographs from the 1950s—the period when Lacan was developing his influential theories. It is not the horror of the ravished and mutilated corpses that draws his attention; instead, he interrogates seemingly minor details from the everyday, isolating and rephotographing what at first seems insignificant: a single high heeled shoe on a kitchen table, for example, or carefully folded clothes placed over a chair. From these mundane details he carefully builds a robust and comprehensive manual for Lacanian crime investigation that can stand beside the FBI's standard-issue Crime Classification Manual.

The Shingle Style Today Vincent Scully (Jr.), 1974 Discusses the changing production, processing, distribution, storage and preparation of our foods which have allowed pathogens and other food-borne diseases to increase in numbers over the past twenty-five years.

[fiber bragg gratings sol photonics - Dec 30 2022](#)

web the characteristics of the fiber bragg grating were studied in the simulation environment using optiwave systems optigrating software this software uses the coupled mode theory to model the light and enable analysis and synthesis of gratings

[modeling and simulation of fiber bragg grating as temperature - Feb 17 2022](#)

web sep 14 2022 this paper presents simulation results of optical fiber sensors based on fiber bragg grating fbg the selection of proper grating is done on the basis of comparative analysis between different grating shapes and apodization the simulation

web may 1 2019 in this simulation study optisystem 18 software is used to monitor and study the effectiveness of side strain on selected lengths of two virtual uniform fiber bragg grating fbg sensors

[designing of fiber bragg gratings for long distance optical fiber - Sep 26 2022](#)

web feb 3 2021 there are lots of simulation tools for fbgs including optigrating rsoft and comsol you can use matlab and python if you know how to code in matlab python as long as i know there are good equipment in optigrating to simulate all types of fbgs

[fiber bragg grating model simulation with fimmpop software - May 23 2022](#)

web jan 1 2010 abstract and figures this paper deals with mathematical modeling design and application of fiber bragg grating as temperature sensor in this paper we used the matlab and filter characteristics

[pdf design and simulation of fiber bragg grating by comsol - Apr 02 2023](#)

[fbg simul v1 0 fibre bragg grating signal simulation tool for](#) - May 03 2023

web fbg simul v1 0 is a tool to study and design the implementation of fibre bragg grating fbg sensors into any kind of structure or application the software removes the need of an fibre optic expert user becoming more obvious the sensor response of a structural

[fbg simul v1 0 fibre bragg grating signal simulation](#) - Sep 07 2023

web jan 1 2016 the software uses a modified version of the t matrix method to simulate the fbg signal from a fem model thus it can simulate the fbg response independently of the type of structure loading or application also the software removes the need for a

[github benfrey fbg simplus fiber bragg grating](#) - Aug 06 2023

web in this topic we demonstrate how to simulate fiber bragg grating fbgs using mode eigenmode expansion eme solver simulation setup the fbg is constructed with an effective index of 1.5 and a periodic variation of $1e^{-3}$ in the refractive index of the core of

[pdf simulation based performance analysis of fiber bragg](#) - Jul 25 2022

web simulation steps of the two dimensional single mode smf and multimode optical fiber mmf were recorded in details section three the simulation steps of the 3d fiber bragg nted in section 3.2 the resultant modes finally the conclusion was presented in section

[pdf fbg simul v1 0 fibre bragg grating signal](#) - Jul 05 2023

web fbg simul v1 0 is a tool to study and design the implementation of bre bragg grating fbg sensors into any kind of structure or application the software removes the need of an bre optic expert user becoming more obvious the sensor response of a structural
