Fallout Todd Strasser,2015-05-12 “Combines terrific suspense with thoughtful depth. . . . Riveting.” — Kirkus Reviews (starred review) In the summer of 1962, the possibility of nuclear war is all anyone talks about. But Scott’s dad is the only one in the neighborhood who actually builds a bomb shelter. When the unthinkable happens, neighbors force their way into the shelter before Scott’s dad can shut the door. With not enough room, not enough food, and not enough air, life inside the shelter is filthy, physically draining, and emotionally fraught. But even worse is the question of what will — and won’t — remain when the door is opened again.

The People of Sand and Slag Paolo Bacigalupi,2015-07-10 In “The People of Sand and Slag,” a Hugo and Nebula Award-nominated short story, Paolo Bacigalupi weaves a tale about the lives of three technologically modified guards, their barren, heavily mined landscape, and a chance encounter with a creature rare for their time period – a dog. What starts off as a hunt for an enemy ends up as a story of empathy, and what it means to be human. “The People of Sand and Slag” was nominated for the 2005 Hugo Award for Best Novelette, and the 2006 Nebula Award for Best Novelette. It was featured in Gardner Dozois’s “Year’s Best SF” Twenty-Second Edition, Jonathan Strahan’s “Best SF of the Year” 2004 Edition, and in John Joseph Adams’ “Wastelands” Anthology in 2008. Reviews: “A difficult and touching story, which steps pretty far outside the box to examine our relationship to pets, and to nature. At every stage, Bacigalupi gets it right.” --- Internet Review of Science Fiction “Bacigalupi posits a future where humanity has adapted itself to living in a hostile environment. ... There is plenty of techie stuff entwined with the premise itself to satisfy the hardest of hard sf readers, but the main attraction of this story is the faint hope that those parts of us that can accept the other might still exist in a world where self-preservation and survival come first.” --- Tangent Online

500 Days Kurt Eichenwald,2012-09-11 Kurt Eichenwald—New York Times bestselling author of Conspiracy of Fools and The Informant— recounts the first 500 days after 9/11 in a comprehensive, compelling page-turner as gripping as any thriller. In 500 Days, master chronicler Kurt Eichenwald lays bare the harrowing decisions, deceptions, and delusions of the eighteen months that changed the world forever, as leaders raced to protect their citizens in the wake of 9/11. Eichenwald’s gripping, immediate style and true-to-life dialogue puts readers at the heart of these historic events, from the Oval Office to Number 10 Downing Street, from Guantanamo Bay to the depths of CIA headquarters, from the al-Qaeda training camps to the torture chambers of Egypt and Syria. He reveals previously undisclosed information from the terror wars, including never before reported details about warrantless wiretapping, the anthrax attacks and investigations, and conflicts between Washington and London. With his signature fast-paced narrative style, Eichenwald— whose book, The Informant, was called “one of the best nonfiction books of the decade” by The New York Times Book Review—exposes a world of secrets and lies that has remained hidden for far too long.

The Dunwich Horror H. P. Lovecraft,2023-08-31 *The Dunwich Horror* by H. P. Lovecraft Audiobook is a horror novella by American writer H. P. Lovecraft. Written in 1928, it was first published in the April 1929 issue of *Weird Tales* (pp. 481–508). It takes place in Dunwich, a fictional town in Massachusetts. It is considered one of the core stories of the Cthulhu Mythos. Plot: In the desolate, decrepit Massachusetts village of Dunwich, Wilbur Whateley is the hideous son of Lavinia Whateley, a deformed and unstable albino, and an unknown father. Strange events surround Wilbur's birth and precocious development; he matures at an abnormal rate, reaching manhood within a decade. Locals shun him and his family, and animals fear and despise him due to an unnatural, inhuman odor emanating from his body. All the while his grandfather, a sorcerer named Old Whateley, indoctrinates him into certain dark rituals and the study of witchcraft. Various locals grow suspicious after Old Whateley buys more and more cattle, yet the number of his herd never increases and the cattle in his field become mysteriously afflicted with severe open wounds. Wilbur and Old Whateley have sequestered an unseen entity at their farmhouse; this entity is connected somehow to a being known as Yog-Sothoth, which is Wilbur's father. Year by year, the entity grows to monstrous proportions, requiring the two men to make frequent modifications to the farmhouse. People begin to notice a trend of cattle mysteriously disappearing. Old Whateley eventually dies, and his mother disappears soon after. The colossal entity eventually occupies the entire interior of the farmhouse. Wilbur ventures to Miskatonic University in Arkham to procure the copy of the *Necronomicon* – Miskatonic's library is one of only a handful in the world to stock an original. The *Necronomicon* has spells that Wilbur can use to summon the Old Ones, but his family's copy is damaged and lacks the page he needs to open the door. When the librarian, Dr. Henry Armitage, refuses to release the university's copy to him (and by sending warnings to other libraries thwarts Wilbur's efforts to consult their copies), Wilbur breaks into the library under the cover of night to steal it.

Bad Elements Ian Buruma,2002-11-12 Who speaks for China? Is it the old men of the politbureau or an activist like Wei Jingsheng, who spent eighteen years in prison for writing a democratic manifesto? Is China's future to be found amid the boisterous sleaze of an electoral campaign in Taiwan or in the maneuvers by which ordinary residents of Beijing quietly resist the authority of the state? These are among the questions that Ian Buruma poses in this enlightening and often moving tour of Chinese dissidence. Moving from the quarrelsome exile communities of the U. S. to Singapore and Hong Kong and from persecuted Christians to Internet "hacktivists," Buruma captures an entire spectrum of opposition to the orthodoxies of the Communist Party. He explores its historical antecedents its conflicting notions of

freedom and the paradoxical mix of courage and cussedness that inspires its members. Panoramic and intimate, disturbing and inspiring, *Bad Elements* is a profound meditation on the themes of national identity and political struggle.

The Accidental Empire Gershom Gorenberg,2007-03-06 The untold story, based on groundbreaking original research, of the actions and inactions that created the Israeli settlements in the occupied territories After Israeli troops defeated the armies of Egypt, Syria, and Jordan in June 1967, the Jewish state seemed to have reached the pinnacle of success. But far from being a happy ending, the Six-Day War proved to be the opening act of a complex political drama, in which the central issue became: Should Jews build settlements in the territories taken in that war? *The Accidental Empire* is Gershom Gorenberg's masterful and gripping account of the strange birth of the settler movement, which was the child of both Labor Party socialism and religious extremism. It is a dramatic story featuring the giants of Israeli history—Moshe Dayan, Golda Meir, Levi Eshkol, Yigal Allon—as well as more contemporary figures like Ariel Sharon, Yitzhak Rabin, and Shimon Peres. Gorenberg also shows how the Johnson, Nixon, and Ford administrations turned a blind eye to what was happening in the territories, and reveals their strategic reasons for doing so. Drawing on newly opened archives and extensive interviews, Gorenberg reconstructs what the top officials knew and when they knew it, while weaving in the dramatic first-person accounts of the settlers themselves. Fast-moving and penetrating, *The Accidental Empire* casts the entire enterprise in a new and controversial light, calling into question much of what we think we know about this issue that continues to haunt the Middle East.

Fractured Lands Scott Anderson,2017-05-02 From the bestselling author of *Lawrence in Arabia*, a piercing account of how the contemporary Arab world came to be riven by catastrophe since the 2003 United States invasion of Iraq. In 2011, a series of anti-government uprisings shook the Middle East and North Africa in what would become known as the Arab Spring. Few could predict that these convulsions, initially hailed in the West as a triumph of democracy, would give way to brutal civil war, the terrors of the Islamic State, and a global refugee crisis. But, as New York Times bestselling author Scott Anderson shows, the seeds of catastrophe had been sown long before. In this gripping account, Anderson examines the myriad complex causes of the region's profound unraveling, tracing the ideological conflicts of the present to their origins in the United States invasion of Iraq in 2003 and beyond. From this investigation emerges a rare view into a land in upheaval through the eyes of six individuals—the matriarch of a

dissident Egyptian family; a Libyan Air Force cadet with divided loyalties; a Kurdish physician from a prominent warrior clan; a Syrian university student caught in civil war; an Iraqi activist for women's rights; and an Iraqi day laborer-turned-ISIS fighter. A probing and insightful work of reportage, *Fractured Lands* offers a penetrating portrait of the contemporary Arab world and brings the stunning realities of an unprecedented geopolitical tragedy into crystalline focus.

The Cambridge History of America and the World: Volume 4, 1945 to the Present David C.

Engerman, Max Paul Friedman, Melani McAlister, 2022-03-03 The fourth volume of *The Cambridge History of America and the World* examines the heights of American global power in the mid-twentieth century and how challenges from at home and abroad altered the United States and its role in the world. The second half of the twentieth century marked the pinnacle of American global power in economic, political, and cultural terms, but even as it reached such heights, the United States quickly faced new challenges to its power, originating both domestically and internationally. Highlighting cutting-edge ideas from scholars from all over the world, this volume anatomizes American power as well as the counters and alternatives to 'the American empire.' Topics include US economic and military power, American culture overseas, human rights and humanitarianism, third-world internationalism, immigration, communications technology, and the Anthropocene.

Bunker Bradley Garrett, 2021-08-03 Since prehistory, bunkers have been built as protection from cataclysmic social and environmental forces, and as places of power and transformation. Today, the bunker has become the extreme expression of our greatest fears- from pandemics to climate change and nuclear war. And once you look, it doesn't take long to start seeing bunkers everywhere. In *Bunker*, acclaimed urban explorer and cultural geographer Bradley Garrett explores the global and rapidly growing movement of 'prepping' for social and environmental collapse, or 'Doomsday'. From the 'dread merchants' hustling safe spaces in the American mid-West to eco-fortresses in Thailand, from geoscrapers to armoured mobile bunkers, *Bunker* is a brilliant, original and never less than deeply disturbing story from the frontlines of the way we live now, an illuminating reflection on our age of disquiet and dread that brings it into new, sharp focus. The bunker, Garrett shows, is all around us, in malls, airports, gated communities, the vehicles we drive. Most of all, he shows, it's in our minds.

Everything Harder Than Everyone Else Jenny Valentish, 2021-11-23 A no-holds-barred, gonzo dive into the world of extreme behavior; from abstinence to ego, punishment to curiosity, obsession to reinvention, acclaimed journalist Jenny Valentish uncovers what drives those who push the limits of endurance. What do extreme eaters, MMA fighters, ultra-marathon runners, and BDSM practitioners have in common? What drives some people to push their bodies and minds to the brink, putting everything on the line to test the bounds of their capacity? When Jenny Valentish worked through her own addictions, she became fascinated by extremes in their myriad and unexpected manifestations. In the darkly funny, brash, and irresistible *Everything Harder Than Everyone Else*, Valentish immerses herself in the lives of sex workers, body builders, and dedicated fighters and finds that many of the people she encounters have overcome addictions and trauma to find release and community where the stakes are at their highest. Harnessing a journalistic approach that's equal parts brazenly curious and remarkably compassionate, Valentish finds herself neck-deep in her own investigation, embroiling herself in the world of competitive Muay Thai fighting and in the dark chambers of a BDSM dungeon. At every turn she stares unflinchingly into the darker corners of culture that polite society ignores and repudiates, asking readers and herself, how far are you willing to go?

The House That Madigan Built Ray Long,2022-03-03 Michael Madigan rose from the Chicago machine to hold unprecedented power as Speaker of the Illinois House of Representatives. In his thirty-six years wielding the gavel, Madigan outlasted governors, passed or blocked legislation at will, and outmaneuvered virtually every attempt to limit his reach. Veteran reporter Ray Long draws on four decades of observing state government to provide the definitive political analysis of Michael Madigan. Secretive, intimidating, shrewd, power-hungry--Madigan mesmerized his admirers and often left his opponents too beaten down to oppose him. Long vividly recreates the battles that defined the Madigan era, from stunning James Thompson with a lightning-strike tax increase, to pressing for a pension overhaul that ultimately failed in the courts, to steering the House toward the Rod Blagojevich impeachment. Long also shines a light on the machinery that kept the Speaker in power. Head of a patronage army, Madigan ruthlessly used his influence and fundraising prowess to reward loyalists and aid his daughter's electoral fortunes. At the same time, he reshaped bills to guarantee he and his Democratic troops shared in the partisan spoils of his legislative victories. Yet Madigan's position as the state's seemingly invulnerable power broker could not survive scandals among his close associates and the widespread belief that his time as Speaker had finally reached its end. Unsparing and authoritative, *The House That Madigan Built* is the page-turning account of one the most powerful politicians in Illinois history.

Trouble in Paradise Robert B. Parker,1999-10-01 Jesse Stone returns in this New York Times bestselling novel of death and deception from Robert B. Parker. Stiles Island is a wealthy and exclusive enclave separated by a bridge from the Massachusetts coast town of Paradise. James Macklin sees the Island as the ultimate investment opportunity: all he needs to do is invade it, blow the bridge, and loot the island. To realize his scheme, Macklin, along with his devoted girlfriend, Faye, assembles a crew of fellow ex-cons—all experts in their fields—including Wilson Cromartie, a fearsome Apache. James Macklin is a bad man, a very bad man. And Wilson Cromartie, known as Crow, is even worse. As Macklin plans his crime, Paradise police chief Jesse Stone has his hands full. He faces romantic entanglements in triplicate: his ex-wife, Jenn, is in the Paradise jail for assault, he's begun a new relationship with a Stiles Island realtor named Marcy Campbell, and he's still sorting out his feelings for attorney Abby Taylor. When Macklin's attack on Stiles Island is set in motion, both Marcy and Abby are put in jeopardy. As the casualties mount, it's up to Jesse to keep both women from harm.

The Cold War John Lewis Gaddis,2006-12-26 “Outstanding . . . The most accessible distillation of that conflict yet written.” —The Boston Globe “Energetically written and lucid, it makes an ideal introduction to the subject.” —The New York Times The “dean of Cold War historians” (The New York Times) now presents the definitive account of the global confrontation that dominated the last half of the twentieth century. Drawing on newly opened archives and the reminiscences of the major players, John Lewis Gaddis explains not just what happened but why—from the months in 1945 when the U.S. and the U.S.S.R. went from alliance to antagonism to the barely averted holocaust of the Cuban Missile Crisis to the

maneuvers of Nixon and Mao, Reagan and Gorbachev. Brilliant, accessible, almost Shakespearean in its drama, *The Cold War* stands as a triumphant summation of the era that, more than any other, shaped our own. Gaddis is also the author of *On Grand Strategy*.
