The Thorn and the Blossom Theodora Goss,2012-02-07 One enchanting romance. Two lovers keeping secrets. And a uniquely crafted book that binds their stories forever. When Evelyn Morgan walked into the village bookstore, she didn't know she would meet the love of her life. When Brendan Thorne handed her a medieval romance, he didn't know it would change the course of his future. It was almost as if they were the cursed lovers in the old book itself . . . The Thorn and the Blossom is a remarkable literary artifact: You can open the book in either direction to decide whether you'll first read Brendan's, or Evelyn's account of the mysterious love affair. Choose a side, read it like a regular novel—and when you get to the end, you'll find yourself at a whole new beginning.

Willful Child Steven Erikson,2014-11-04 From the New York Times Bestselling author Steven Erikson comes a new science fiction novel of devil-may-care, near calamitous and downright chaotic adventures through the infinite vastness of interstellar space. These are the voyages of the starship A.S.F. Willful Child. Its ongoing mission: to seek out strange new worlds on which to plant the Terran flag, to subjugate and if necessary obliterate new life-forms, to boldly blow the... And so we join the not-terribly-bright but exceedingly cock-sure Captain Hadrian Sawback and his motley crew on board the Starship Willful Child for a series of devil-may-care, near-calamitous and downright chaotic adventures through 'the infinite vastness of interstellar space.' The New York Times bestselling author of the acclaimed Malazan Book of the Fallen sequence has taken his lifelong passion for Star Trek and transformed it into a smart, inventive, and hugely entertaining spoof on the whole mankind-exploring-space-for-the-good-of-all-species-but-trashing-stuff-with-a-lot-of-high-tech-gadgets-along-the-way, overblown adventure. The result is an SF novel that deftly parodies the genre while also paying fond homage to it. The Distance Between Us Reyna Grande,2012 Traces the author's experiences as an illegal child immigrant, describing her father's violent alcoholism, her efforts to obtain a higher education, and the inspiration of Latina authors.

The Ice Dragon George R. R. Martin,2014-10-21 The Ice Dragon is an enchanting tale of courage and sacrifice for young readers and adults by the wildly popular author of the #1 New York Times bestselling Song of Ice and Fire series, George R.R. Martin. Lavish illustrations by acclaimed artist Luis Royo enrich this captivating and heartwarming story of a young girl and her dragon. In the world of A Song of Ice and Fire the ice dragon was a creature of legend and fear, for no man had ever tamed one. When it flew overhead, it left in its wake desolate cold and frozen land. But Adara was not afraid. For Adara was a winter child, born during the worst freeze that anyone, even the Old Ones, could remember. Adara could not remember the first time she had seen the ice dragon. It seemed that it had always been in her life, glimpsed from afar as she played in the frigid snow long after the other children had fled the cold. In her fourth year she touched it, and in her fifth year she rode upon its broad, chilled back for the first time. Then, in her seventh year, on a calm summer day, fiery dragons from the North swooped down upon the peaceful farm that was Adara's home. And only a winter child—and the ice dragon who loved her—could save her world from utter destruction. This new edition of The Ice Dragon is sure to become a collector's item for fans of HBO's megahit Game of Thrones. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

It is found in the work The Republic and aims to exemplify how human beings can free themselves from the condition of darkness that imprisons them through the light of truth. Shadow Michael Morpurgo, 2014-12-23 Author of War Horse, and bestselling storyteller Michael Morpurgo touched our hearts with this beautiful story of a boy, his lost dog, and the lengths he would go to be reunited. This timely story of battle-scarred Afghanistan delivers a masterful portrait of war, love, and friendship. With the horrors of war bearing down on them, Aman and his mother are barely surviving in an Afghan cave, and staying there any longer will end horribly. The only comfort Aman has is Shadow, the loyal spaniel that shows up from places unknown, it seems, just when Aman needs him most. Aman, his mother, and Shadow finally leave the destroyed cave in hopes of escaping to England, but are held at a checkpoint, and Shadow runs away after being shot at by the police. Aman and his mother escape--without Shadow. Aman is heart-broken. Just as they are getting settled as free citizens in England, they are imprisoned in a camp with locked doors and a barbed wire fence. Their only hope is Aman's classmate Matt, his grandpa, and the dream of finding his lost dog. After all, you never lose your shadow.

The Crystal Cave Mary Stewart, 2003-05-06 Born the bastard son of a Welsh princess, Myrddin Emrys -- or as he would later be known, Merlin -- leads a perilous childhood, haunted by portents and visions. Tek Patrick McDonnell, 2016-10-04 Is it a book...or an electronic tablet? From bestselling author and Caldecott honoree Patrick McDonnell comes a timely tale in a tablet-shaped package that's perfect for today's legions of device-obsessed, digital-savvy children. Here is a hilarious (and heartfelt) reminder of how technology can take us backward...all the way to the times of prehistoric man! Tek is a cave boy in love with tech: his tablet, videogames, phone, and TV keep him deep in his cave, glued to his devices, day in and day out. He never sees his friends or family anymore--and his ability to communicate has devolved to just one word: UGH! Can anyone in the village convince Tek to unplug and come outside into the big, beautiful world? A distinctive, digitally-inspired package and design cleverly evokes the experience of using an electronic device that eventually shuts

down...and after a magic page turn, Tek reconnects with the real world.

Rise of the Wolf (Mark of the Thief, Book 2) Jennifer A. Nielsen, 2016-01-26 NYT and USA Today bestselling author Jennifer A. Nielsen brings a new dose of adventure and thrills to ancient Rome in the second book of her magical Mark of the Thief trilogy! Nic may have escaped enslavement in the mines outside of Rome, but his troubles are far from over. The Praetor War -- the battle to destroy Rome from within -- is in full force, and Nic is caught in the crossfire. The secretive Praetors are determined to unlock a powerful amulet -- one sure to bring the empire to its knees. Worse, the Praetors believe Nic holds the key to finding this amulet, and they will stop at nothing to steal it, even if that means harming the people Nic holds most dear. When the Praetors capture Nic's mother, Nic knows he must do anything to save her. He challenges the Praetors to a chariot race. If he wins, they will release his mother. But if he loses, he must hand over a magic that will certainly bring about the end of Rome as well as his own life. Can Nic once again harness his magic and gather the strength to defeat his enemies? Or will he lose his mother and bear witness to Rome's destruction?

Men Are from Mars, Women Are from Venus John Gray, 1993-04-23 Popular marriage counselor and seminar leader John Gray provides a unique, practical and proven way for men and women to communicate and relate better by acknowledging the differences between them. Once upon a time Martians and Venusians met, fell in love, and had happy relationships together because they respected and accepted their differences. Then they came to earth and amnesia set in: they forgot they were from different planets. Using this metaphor to illustrate the commonly occurring conflicts between men and women, Gray explains how these differences can come between the sexes and prohibit mutually fulfilling loving relationships. Based on years of successful counseling of couples, he gives advice on how to counteract these differences in communication styles, emotional needs and modes of behavior to promote a greater understanding between individual partners. Gray shows how men and women react differently in conversation and how their relationships are affected by male intimacy cycles (get close, back off), and female self-esteem fluctuations (I'm okay, I'm not okay). He encourages readers to accept the other gender's particular way of expressing love, and helps men and women learn how to fulfill each other's emotional needs. With practical suggestions on how to reduce conflict, crucial information on how to interpret a partner's behavior and methods for preventing emotional trash from the past from invading new relationships, *Men Are from Mars, Women Are from Venus* is a valuable tool for couples who want to develop deeper and more satisfying relationships with their partners.

Murakami T Haruki Murakami, 2021-11-23 The international literary icon opens his eclectic closet: Here are photographs of Murakami's extensive and personal T-shirt collection, accompanied by essays that reveal a side of the writer rarely seen by the public. Many of Haruki Murakami's fans know about his massive vinyl record collection (10,000 albums!) and his obsession with running, but few have heard about a more intimate passion: his T-shirt collecting. In *Murakami T*, the famously reclusive novelist shows us his T-shirts—from concert shirts to never-worn whiskey-themed Ts, and from beloved bookstore swag to the shirt that inspired the iconic short story *Tony Takitani*. These photographs are paired

with short, frank essays that include Murakami's musings on the joy of drinking Guinness in local pubs across Ireland, the pleasure of eating a burger upon arrival in the United States, and Hawaiian surf culture in the 1980s. Together, these photographs and reflections reveal much about Murakami's multifaceted and wonderfully eccentric persona.

History of Pictures David Hockney, Martin Gayford, 2020-08-11 A compact edition of Hockney and Gayford's brilliantly original book, with updated material and brand-new pieces of art Informed and energized by a lifetime of painting, drawing, and making images with cameras, David Hockney, in collaboration with art critic Martin Gayford, explores how and why pictures have been made across the millennia. Juxtaposing a rich variety of images--a still from a Disney cartoon with a Japanese woodblock print by Hiroshige, a scene from an Eisenstein film with a Velazquez painting--the authors cross the normal boundaries between high culture and popular entertainment, and argue that film, photography, painting, and drawing are deeply interconnected. Featuring a revised final chapter with some of Hockney's latest works, this new, compact edition of A History of Pictures remains a significant contribution to the discussion of how artists represent reality.
