and academically rigorous exploration of Indonesia. It will be of interest to students, academics, policymakers, and others in search of reliable information on Indonesian politics, economics, religion, and society in an accessible format.

Culture and Customs of Indonesia Jill Forshee, 2006 Indonesia comprises more than 17,000 islands stretching on either side of the equator for nearly 4,000 miles and hundreds of ethnic groups. This book reveals the remarkable social, religious, and geographical differences that exist from island to island. It also reveals local people's own ideas of their identities and pasts.

**Reading Contemporary Indonesian Muslim Women Writers** Diah Ariani Arimbi, 2009 A study that discusses the construction of gender and Islamic identities in literary writing by four prominent Indonesian Muslim women writers: Titis Basino P I, Ratna Indraswari Ibrahim, Abidah El Kalieqy and Helvy Tiana Rosa.

A Day in the Life of the Beatles Don McCullin, 2010 We didn't know where it was all going. We just didn't know. One day in September 1968 Don McCullin, then regarded as the world's most accomplished war photographer, received a commission from the Apple Corporation to spend a day photographing the Beatles.

**Oligarchic Cartelization in Post-Suharto Indonesia** Boni Hargens, 2021-12-20 Oligarchic Cartelization in Post-Suharto Indonesia By: Boni Hargens As detailed in Oligarchic Cartelization in Post-Suharto Indonesia, a few ruling individuals from party organizations overpowered Indonesia's post-authoritarian, representative democracy. The legislative process of the 2017 Election Act was the case study employed to examine this assumption. The underlying thinking was that there was a contest between "wealth power" (oligarchy) and "participation power" (democracy). The power of wealth controls the party and government institutions. Notwithstanding the presence of participation power, there was, however, no balance between wealth power and participation power, because the formal control of politics was in the hands of party oligarchs. This study is purposed to bridge the gap in knowledge by exploring how the party oligarchs maintain the policymaking, reputedly using cartelized strategies, to defend the status quo. By employing the oligarchy and cartelization concepts, the central question of this inquiry focused on how the party oligarchs mastered the policy process in post-Suharto Indonesia. Qualitative findings indicated that the party oligarchs engineered the legal process in parliament applying cartelized strategies to defend privileges they obtained from collusive interpenetrations with the state. Understanding the "oligarchic cartelization" theoretical postulate is a fundamental step for party members to improve their performance in public offices. The results of this study can also be a useful reference for pro-democracy activists to defend the ontological essence of public participation in implementing representative democracy at an appropriate level.

**Historical Dictionary of Indonesia** Audrey Kahin, 2015-10-29 A wide-flung archipelago lying between the Pacific and Indian Oceans, Indonesia is the world's most populous Islamic country. For over two thousand years it was a crossroads on the major trading route between China and India, but it was not brought together into a single entity until the Dutch extended their rule throughout the Netherlands East Indies in the early part of the 20th century. Declaring its independence from the Dutch in 1945, the Republic of Indonesia

was ruled by only two regimes over the next half century Throughout the years the country has continued to be dogged by an inefficient bureaucracy and by perpetual problems of corruption. However, since 2004 Indonesia has successfully carried out four direct elections for president, together with an equal number of elections for legislative bodies at all levels of government, and has finally in 2014 elected a president with no ties to either the military or to the previous authoritarian power structure. This third edition of Historical Dictionary of Indonesia contains a chronology, an introductory essay, appendixes, and an extensive bibliography. The dictionary section has over 900 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent access point for students, researchers, and anyone wanting to know more about Indonesia.

*Chinese Indonesians in Post-Suharto Indonesia* Wu-Ling Chong, 2018-10-02  
Selfish, obscenely rich, insular, and opportunistic: these remain how Chinese minorities in Indonesia are perceived by the indigenous population. However, far from being passive victims of discrimination and marginalisation, Chong presents a forceful case in which Chinese Indonesians possess the agency to shape their future in the country, particularly in the changing political, business, and socio-cultural environment after the fall of Suharto. While a lack of good governance that promotes the rule of law and accountability allows or even encourages some Chinese to maintain the status quo by perpetuating corrupt business practices inherited from Suharto's New Order regime, there are other Chinese Indonesians who make full use of the democratic space opened up under the new administrations, acting as agents of reform by participating in electoral politics and establishing inter-ethnic socio-cultural organisations. Building on Anthony Giddens's structure-agency theory and Pierre Bourdieu's notions of habitus and field, Chong shows that the Chinese minorities have played an active role in the democratic process, even though they continue to occupy an ambivalent position in Indonesia. The Chinese Indonesians' diverse strategies to safeguard their personal interests and cultural identities make a stimulating case study of what an ethnic minority could do to make a difference. 'Backed by formidable research, Chong has produced an intriguing and original view of the political, social, and economic activity of the still precariously placed Chinese minority in Indonesia.' –Donald L. Horowitz, Duke University; author of *Constitutional Change and Democracy in Indonesia* 'In this illuminating study, Chong traces the political economy of Indonesia's ethnic Chinese minority as they navigate the country's post-1998 politics, which is more free but still lacks strong rule of law. Focusing especially on Medan and Surabaya, she analyses how some have strongly supported reforms while many continue old practices of surviving and profiting by participating in massive corruption and extortion.' –Jeffrey A. Winters, Northwestern University; author of *Oligarchy*

Islamising Indonesia Yon Machmudi, 2008-11-01 The Prosperous Justice Party (PKS) is the most interesting phenomenon in contemporary Indonesian politics. Not only is it growing rapidly in membership and electoral support, it is also bringing a new and markedly different approach to Islamic politics, one which has no precedent in Indonesian history. Understanding PKS and analysing its political behaviour presents challenges to scholars and observers. This is partly due to the fact that the party represents a new trend within Indonesian Islam which has few parallels with preceding movements. Yon

Machmudi has rendered us a valuable service. In this book, he provides a thoughtful and authoritative context for viewing PKS. He critiques the existing categorisations for Indonesian Islam and points to their inadequacy when describing the PKS and the campus-based Tarbiyah movement from which it sprang. He reworks the santri typology, dividing it into convergent, radical and global substreams. This offers new possibilities for explaining the PKS phenomenon and assists in differentiating between various types of Islamic revivalism in contemporary Indonesia. It also allows a more understanding of the accommodatory stance which PKS has towards the state and other political forces. Yon's text provides a good overview of the development of PKS from its Tarbiyah movement origins to its impressive success at the 2004 general elections. It considers the party's attitude towards the issues of sharia implementation and community welfare and closes by examining the future challenges facing PKS. It is a well written and authoritative account from a scholar who has done wideranging research on the party.

**Urban Centres in Asia and Latin America** Simone Sandholz, 2016-09-20 This book presents an overview of the challenges that cities in Latin America and Asia are facing regarding the preservation of their tangible and intangible heritage. It argues that urban heritage has a value that transcends the mere object's value, constituting a crucial source of identity for urban inhabitants. The same is true for the urban intangible values and practices that are often associated with places or buildings. The empirical research is based on case studies of Kathmandu in Nepal, Yogyakarta in Indonesia and Recife in Brazil; three cities that still comprise core areas with a high percentage of historic fabric and distinctive cultural expressions. The comparative study of the three areas reveals the similarities and differences of urban conservation policies, past and present upgrading strategies in the core areas, and the importance of tangible and intangible heritage. All three cities demonstrate that urban heritage, habits and beliefs are still of importance to the population. While there are significant differences in the kind and level of protection the respective legal system provides, partly uncontrolled urban dynamics pose a threat to all of them. The text is based on a PhD thesis submitted to the Institute of Geography, University of Innsbruck, Austria.

*The World of Myth* David Adams Leeming, 1992-02-27 Hercules, Zeus, Thor, Gilgamesh--these are the figures that leap to mind when we think of myth. But to David Leeming, myths are more than stories of deities and fantastic beings from non-Christian cultures. Myth is at once the most particular and the most universal feature of civilization, representing common concerns that each society voices in its own idiom. Whether an Egyptian story of creation or the big-bang theory of modern physics, myth is metaphor, mirroring our deepest sense of ourselves in relation to existence itself. Now, in *The World of Myth*, Leeming provides a sweeping anthology of myths, ranging from ancient Egypt and Greece to the Polynesian islands and modern science. We read stories of great floods from the ancient Babylonians, Hebrews, Chinese, and Mayans; tales of apocalypse from India, the Norse, Christianity, and modern science; myths of the mother goddess from Native American Hopi culture and James Lovelock's Gaia. Leeming has culled myths from Aztec, Greek, African, Australian Aboriginal, Japanese, Moslem, Hittite, Celtic, Chinese, and Persian cultures, offering one of the most wide-ranging collections of what he calls the collective dreams of humanity. More important, he has organized

these myths according to a number of themes, comparing and contrasting how various societies have addressed similar concerns, or have told similar stories. In the section on dying gods, for example, both Odin and Jesus sacrifice themselves to renew the world, each dying on a tree. Such traditions, he proposes, may have their roots in societies of the distant past, which would ritually sacrifice their kings to renew the tribe. In *The World of Myth*, David Leeming takes us on a journey not through a maze of falsehood but through a marvellous world of metaphor, metaphor for the story of the relationship between the known and the unknown, both around us and within us. Fantastic, tragic, bizarre, sometimes funny, the myths he presents speak of the most fundamental human experience, a part of what Joseph Campbell called the wonderful song of the soul's high adventure.

**Popular Culture in Indonesia** Ariel Heryanto, 2008-06-30 This book examines popular culture in Indonesia, bringing material on Indonesia's media and popular culture to an English readership for the first time. It includes analysis of important themes including citizenship, gender, class, age and ethnicity, showing how developments in Indonesian society more generally are inextricably linked to popular culture.

**Musical Nationalism in Indonesia** Sharifah Faizah Syed Mohammed, 2021-04-21 This book charts the growth of the Indonesian nationalistic musical genre of lagu seriosa in relation to the archipelago's history in the 1950s and 1960s, examining how folk songs were implemented as a valuable tool for promoting government propaganda. The author reveals how the genre was shaped to fit state ideologies and agendas in the Sukarno and Soeharto eras. It also reveals the very significant role played by Radio Republik Indonesia in the genre's development and dissemination. Little research has been done to investigate how Indonesian music contributed to nation-building during Indonesia's immediate post-colonial period. Emulating the European art song, the genre was adapted to compose songs with the purpose of promoting a strengthened collective Indonesian identity, fostered by a group of musicians who functioned as gatekeepers, monitoring and devising various mechanisms for songs to conform to the propagandistic needs of the Indonesian government at the time. The result was the development of classical style of singing and the cultivation of a patriotic collection of music during the Guided Democracy period (1959–1965), which peaked at the height of the Konfrontasi (1963–1966). Lagu seriosa lost popularity as popular music infiltrated Indonesia in the 1970s, but it remains an iconic yet understudied aspect of the nationalistic agenda in Indonesia. The case studies of selected songs reflected continuity and change in musical style and over time. This book is of interest to scholars studying the intersection between history, politics, identity, arts and cultural studies in Indonesia. It is also of interest to researchers investigating the role of music in identity formation and nation-building more widely.

**Rising Powers and Peacebuilding** Charles T Call, Cedric de Coning, 2017-08-29 This book is open access under a CC BY 4.0 license. This edited volume examines the policies and practices of rising powers on peacebuilding. It analyzes how and why their approaches differ from those of traditional donors and multilateral institutions. The policies of the rising powers towards peacebuilding may significantly influence how the UN and others undertake peacebuilding in the future. This book is an invaluable resource for

practitioners, policy makers, researchers and students who want to understand how peacebuilding is likely to evolve over the next decades.
