Shell Game Benny Lawrence,2013 Life in a remote fishing village in the middle of a civil war is neither safe nor inspiring. So, when an opportunity comes along for village girl Lynn to be kidnapped and enslaved by Darren, a ruthless pirate queen, she takes full advantage of it. But Darren is neither as ruthless nor as piratical as she appears at first glance--and Lynn's not exactly what she seems to be, either. In between encounters with old girlfriends, a slow death involving marmalade, and bounty hunters with no sense of humor, Lynn and her new mistress attempt to work out exactly what they are to each other--and who's in charge.

The Meaning of Night Michael Cox,2011-05-18 "After killing the red-haired man, I took myself off to Quinn's for an oyster supper." So begins an extraordinary story of betrayal and treachery, of delusion and deceit narrated by Edward Glyver. Glyver may be a bibliophile, but he is no bookworm. Employed "in a private capacity" by one of Victorian London's top lawyers, he knows his Macrobius from his First Folio, but he has the street-smarts and ruthlessness of a Philip Marlowe. And just as it is with many a contemporary detective, one can't always be sure whether Glyver is acting on the side of right or wrong. As the novel begins, Glyver silently stabs a stranger from behind, killing him apparently at random. But though he has committed a callous and brutal crime, Glyver soon reveals himself to be a sympathetic and seductively charming narrator. In fact, Edward Glyver keeps the reader spellbound for 600 riveting pages full of betrayal, twists, lies, and obsession. Glyver has an unforgettable story to tell. Raised in straitened circumstances by his novelist mother, he attended Eton thanks to the munificence of a mysterious benefactor. After his mother's death, Glyver is not sure what path to take in life. Should he explore the new art of photography, take a job at the British Museum, continue his travels in Europe with his friend Le Grice? But then, going through his mother's papers, he discovers something that seems unbelievable: the woman who raised him was not his mother at all. He is actually the son of Lord Tansor, one of the richest and most powerful men in England. Naturally, Glyver sets out to prove his case. But he lacks evidence, and while trying to find it under the alias "Edward Glapthorn," he discovers that one person stands between him and his birthright: his old schoolmate and rival Phoebus Rainsford Daunt, a popular poet (and secret criminal) whom Lord Tansor has taken a decidedly paternal interest in after the death of his only son. Glyver's mission to regain his patrimony takes him from the heights of society to its lowest depths, from brothels and opium dens to Cambridge colleges and the idylls of Evenwood, the Tansor family's ancestral home. Glyver is tough and resourceful, but Daunt always seems to be a step ahead, at least until Glyver meets the beguilingly beautiful Emily Carteret, daughter of Lord Tansor's

secretary. But nothing is as it seems in this accomplished, suspenseful novel. Glyver's employer Tredgold warns him to trust no one: Is his enigmatic neighbour Fordyce Jukes spying on him? Is the brutal murderer Josiah Pluckthorn on his trail? And is Glyver himself, driven half-mad by the desire for revenge, telling us the whole truth in his candid, but very artful, "confession"? A global phenomenon, *The Meaning of Night* is an addictive, darkly funny, and completely captivating novel. Meticulously researched and utterly gripping, it draws its readers relentlessly forward until its compelling narrator's final revelations.

Marine Mammal Sensory Systems Ronald A. Kastelein, Alexander Ya. Supin, Jeanette A. Thomas, 2012-12-06 This book is a collection of original research papers given at a symposium entitled *Sensory Systems and Behavior of Aquatic Mammals*, hosted by the USSR Academy of Sciences. The meeting was held in Moscow from 16 to 25 October, 1991 and involved nearly 100 scientists from around the world. The major headings of the book correspond to the session topics at the symposium. This meeting was not the first dedicated to problems of sensory systems in aquatic mammals. Experts in this field met several times previously to discuss important problems of sensory functions in echolocating animals. symposia on biosonar systems were held in Frascati, Italy in 1966, then in Jersey, France in 1978, and in Helsingor, Denmark in 1986. Papers presented at these meetings were published in books that advanced significantly the understanding of sensory systems (Busnel and Fish, 1980; Nachtigall and Moore, 1988). Initially, echolocating bats were the main subjects of consideration. However, studies on echolocating aquatic mammals, whales and dolphins, increased from one meeting to the next. Indeed, aquatic mammals are of exceptional interest for studying the adaptation of sensory functions for echolocation in specific aquatic environments. As a natural consequence of these developments, the 1989 symposium in Rome was devoted specifically to the sensory systems of cetaceans (Thomas and Kastelein, 1990). This symposium was held within the Fifth International Theriological Congress and was attended by many scientists.

Claude Monet Claire Joyes, Claude Monet, 1985 For forty-three years Monet lived and painted at Giverny and he created there one of the loveliest gardens ever known. For the first time, in this book both the gardens Monet planted and the gardens as they have been lovingly restored by Gérald Van der Kemp are seen together. In his introduction Van der Kemp tells how he brought the badly neglected garden and house back to their original condition. The restored gardens are beautifully photographed by Jena Barhto. In her fascinating essay, Claire Joyes captures Monet's vigor and great love of life, his temper and his famous cuisine. To accompany the essay the Monet family has contributed many period photographs of the irascible old master. The gardens inspired some of Monet's greatest painting -- the Water Lilies, (the Nymphaea) the Grand Allée. Seeing them side by side with the gardens as they are now and as they were is a great delight, and with Claire Joyes' text the book is an important aid in understanding Monet both as man and as painter. -- From publisher's description.

Gardner's Guide to Writing and Producing Animation Shannon Muir, 2007 From the initial selection of an animation project to its final marketing materials, the art and business of animation production are illuminated in this step-by-step guide, which includes interviews with industry professionals about the place of their work within the general production pipeline and profiles of commercial animation studios. Television specials, pilots, shorts, and independent features are among the projects covered, in addition to a discussion of career opportunities in the field and the creative partnership of artists and engineers.
