Neither Airlie Anderson,2018-03-06 In this colorful and touching story that celebrates what makes each of us unique, a little creature that's not quite a bird and not quite a bunny--it's neither--searches for a place to fit in. In the Land of This and That, there are only two kinds: blue bunnies and yellow birds. But one day a funny green egg hatches, and a little creature that's not quite a bird and not quite a bunny pops out. It's neither! Neither tries hard to fit in, but its bird legs aren't good for jumping like the other bunnies, and its fluffy tail isn't good for flapping like the other birds. It sets out to find a new home and discovers a very different place, one with endless colors and shapes and creatures of all kinds. But when a blue bunny and a yellow bird with some hidden differences of their own arrive, it's up to Neither to decide if they are welcome in the Land of All. This colorful, simple, and touching story promotes diversity and offers a valuable lesson to the youngest of audiences: it is our differences that unite us.

Growing up in a small town and never quite fitting in, Zade is determined to forge her own path. She leaves her home in Tennessee to break free from her overprotective mother Dela, the local resident spellcaster and fortuneteller. Zade travels to Las Vegas and uses supernatural powers to become part of a premiere magic show led by the infamous magician Charles Spellman. Zade fits right in with his troupe of artists and misfits. After all, when everyone is slightly eccentric, appearing 'normal' is much less important. Behind the scenes of this multimillion-dollar production, Zade finds herself caught in a love triangle with Mac, the show's good-looking but rough-around-the-edges technical director and Jackson, the tall, dark, handsome and charming bandleader. Zade's secrets and the struggle to choose between Mac or Jackson creates reckless tension during the grand finale of the show. Using Chaos magick, which is known for being unpredictable, she tests her abilities as a spellcaster farther than she's ever tried and finds herself at death's door. Her fate is left in the hands of a mortal who does not believe in a world of real magick, a fortuneteller who knew one day Zade would put herself in danger and a dagger with mystical powers--Amazon.com

**The Knowledge Illusion** Steven Sloman,Philip Fernbach,2017-03-14 "The Knowledge Illusion is filled with insights on how we should deal with our individual ignorance and collective wisdom." —Steven Pinker We all think we know more than we actually do. Humans have built hugely complex societies and technologies, but most of us don't even know how a pen or a toilet works. How have we achieved so much despite understanding so little? Cognitive scientists Steven Sloman and Philip Fernbach argue that we survive and thrive despite our mental shortcomings because we live in a rich community of knowledge. The key to our intelligence lies in the people and things around us. We're constantly drawing on information and

expertise stored outside our heads: in our bodies, our environment, our possessions, and the community with which we interact—and usually we don't even realize we're doing it. The human mind is both brilliant and pathetic. We have mastered fire, created democratic institutions, stood on the moon, and sequenced our genome. And yet each of us is error prone, sometimes irrational, and often ignorant. The fundamentally communal nature of intelligence and knowledge explains why we often assume we know more than we really do, why political opinions and false beliefs are so hard to change, and why individual-oriented approaches to education and management frequently fail. But our collaborative minds also enable us to do amazing things. The Knowledge Illusion contends that true genius can be found in the ways we create intelligence using the community around us.
