GLEEM Freddy Carrasco, 2024-04-09 Imbued with cyberpunk attitude and in the rebellious tradition of afrofuturism, GLEEM is drawn with a fierce momentum hurtling towards a future world. Carrasco's distinct cinematic style layers detailed panels and spreads, creating a multiplicity of perspectives, at once dizzying and hypnotic. Vignettes unspool in proximity to our own social realities and expand into the outer layers of possibility. Whether in the club or a robot repair workshop, the characters in these three interconnected stories burst across frames until they practically step off the page. A boy becomes bored at church with his grandmother until he tries a psychedelic drug. A group of friends are told that they need a rare battery if they want any chance of reviving their friend. Street style and cybernetics meet and burst into riotous dancing. Kindness and violence might not be as distant from each other as we think. GLEEM unsettles with a confidence that could make you believe in anything.

Our stalwart detectives will face a challenge like they've never encountered before - a murderer who wants to play with them. But what kind of person has the guts to challenge the best, and how far will he go to prove a point? Written by Chris Sarracini (Transformers G1, Fate of the Blade) and featuring beautifully rendered art by Jo Chen & Christina Chen, Darkminds: Macropolis contains issues #1-4 of the thrilling series. Also covers, and interviews with the creative team.

Icons Unmasked Alex Solis, 2016-02-14 Ever wonder if the characters you see on TV, in movies and in comic books are hiding something behind their masks? That perhaps they're really someone -- or something -- else? When pop culture is such a huge part of our lives, we're bombarded with these characters everywhere we turn. Each time we see a new character in a movie, video game or

commercial, we feel a sudden sense deja vu. There's something about their goofy grin, that creepy laugh, or those boogly eyes that feels eerily familiar...This got me thinking. Is anything we see ever 100% original? Or is everything we experience really just our minds piecing together past experiences to create something that feels unique and new? In *Icons Unmasked*, I'm trying to bring a new sense of discovery to characters everyone has seen hundreds of times. I wanted to recreate the experience of what it might be like to see one iconic character from your childhood for the first time as an adult. Proceed at your own caution and keep in mind the following illustrations cannot be unseen. Your childhood might possibly be destroyed forever

Death's Head 3.0, 2006-08-09 It's one hundred years in the future and an organisation known as AIM is fighting a non-violent conflict with the fascist government it wishes to change. But there's a splinter group that's ready to return to its violent roots. Problem is the killer robot. It isn't sure what side it wants to be on.

In a future NYC far different than the one we know today, a lone surviving Turtle goes on a seemingly hopeless mission to obtain justice for his fallen family and friends. Kinetic layouts from Eastman, and a thrilling script full of surprises from longtime TMNT scribe Tom Waltz all combine to make this one of the most memorable TMNT stories you will ever read! This is a perennial TMNT tale that can't be missed!
