breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that's hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), Papertoy Monsters offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own back-story. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck, the lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

Courage, Mon Amie Terry Castle, 2003

There May Be a Castle Piers Torday, 2017-03-14 A remarkable story about love and death from the winner of the Guardian Children's Fiction Prize Eleven-year-old Mouse is travelling to see his grandparents on Christmas Eve with his mother and two sisters. But it's snowing, and visibility is bad, and the car goes off

the road, and crashes. Mouse is thrown from the car. When he wakes, he's not in his world any more. He meets a sheep named Bar, who can only say Baaa, and a sarcastic horse named Nonky, who is a surprising mix of his beloved toy horse and his older sister. So begins a quest to find a castle in a world of wonder - a world of monsters, minstrels, dangerous knights and mysterious wizards; a world of terrifying danger but also more excitement than Mouse has ever known. But why are they looking for a castle? As the cold grows, we realise it might just have something to do with the family he's left behind; and that Mouse's quest is more important than ever. This is a novel about love and death. It's about the power of stories to change the way we view the world - and it's about the power of a child to change their own world. Emotionally arresting but ultimately uplifting, this is a remarkable novel for our times.

Castle of Water Dane Huckelbridge, 2017-04-04 A unique, inventive exploration of love, loss, and survival. —Kristin Hannah, #1 New York Times bestselling author of *The Nightingale* A moving, harrowing, and downright literary novel. —Michelle Gable, New York Times bestselling author of *A Paris Apartment* Brilliant, clever, riveting—pick your adjective, they all apply. —Thomas Christopher Greene, bestselling author of *The Headmaster's Wife* Two very different people, one very small island. For Sophie Ducel, her honeymoon in French Polynesia was intended as a celebration of life. The proud owner of a thriving Parisian architecture firm, co-founded with her brilliant new husband, Sophie had much to look forward to—including a visit to the island home of her favorite singer, Jacques Brel. For Barry Bleecker, the same trip was meant to mark a new beginning. Turning away from his dreary existence in Manhattan finance, Barry had set his sights on fine art, seeking creative inspiration on the other side of the world—just like his idol, Paul Gauguin. But when their small plane is downed in the middle of the South Pacific, the sole survivors of the wreck are left with one common goal: to survive. Stranded hundreds of miles

from civilization, on an island the size of a large city block, the two castaways must reconcile their differences and learn to draw on one another's strengths if they are to have any hope of making it home. Told in mesmerizing prose, with charm and rhythm entirely its own, Dane Huckelbridge's *Castle of Water* is more than just a reimagining of the classic castaway story. It is a stirring reflection on love's restorative potential, as well as a poignant reminder that home—be it a flat in Paris, a New York apartment, or a desolate atoll a world away—is where the heart is.

The Knowledge Illusion Steven Sloman, Philip

Fernbach, 2017-03-14 "The Knowledge Illusion is filled with insights on how we should deal with our individual ignorance and collective wisdom." —Steven Pinker We all think we know more than we actually do. Humans have built hugely complex societies and technologies, but most of us don't even know how a pen or a toilet works. How have we achieved so much despite understanding so little? Cognitive scientists Steven Sloman and Philip Fernbach argue that we survive and thrive despite our mental shortcomings because we live in a rich community of knowledge. The key to our intelligence lies in the people and things around us. We're constantly drawing on information and expertise stored outside our heads: in our bodies, our environment, our possessions, and the community with which we interact—and usually we don't even realize we're doing it. The human mind is both brilliant and pathetic. We have mastered fire, created democratic institutions, stood on the moon, and sequenced our genome. And yet each of us is error prone, sometimes irrational, and often ignorant. The fundamentally communal nature of intelligence and knowledge explains why we often assume we know more than we really do, why political opinions and false beliefs are so hard to change, and why individual-oriented approaches to education and management frequently fail. But our collaborative minds also enable us to do amazing things. *The Knowledge Illusion* contends that true genius can be found in the ways we create intelligence using the

community around us.
