Cyclopean Deeps Volume 1 - Swords & Wizardry Matt Finch,2018-05 Deep beneath the ground, in those regions where the echoes of mankind's feet are seldom heard, where even firelight is a bizarre intruder from a long-forgotten place, the foes of mankind breed and multiply. It is a realm of dark chaos - for these creatures of the echoing deeps count each other as rivals and enemies. It is a place without peace, a place without virtues, a place where every countenance of evil is to be found in sluggish torpor, stirring restlessly in dreams of cruelty and hatred. These dark and deadly provinces are known as the Under Realms. Most named regions in the Under Realms are quite distinct from each other, whether by geological formation or by the types of inhabitants that have established themselves in strategically important areas. Characters who enter this area expecting to find drowic elves, deep gnomes, and other normal features of the Under Realms will swiftly discover the error of their thinking. The Vaults of the Sunless Sea, located to the north of the Cyclopean Deeps, might fit that description, but the Cyclopean Deeps are a different and decidedly more unpleasant area into which the denizens of the Vaults seldom venture. This series of adventures forms a mini-campaign in the depths of the earth, suitable for a party of 4+ characters with an average level of 10-12, or 8+ characters with an average level around 7. For Swords & Wizardry.

Scarecrow's Panic Plot Scott Beatty,2015 After he falls into Scarecrow's trap, Batman is fitted with a helmet that slowly releases a fear-inducing gas, leaving him terrified of everything around him--even Robin and Nightwing, who are trying to save him.

Jim Henson's Labyrinth: The Novelization Jim Henson,A.C.H. Smith,2014-04-22 Fourteen-year-old Sarah must reach the center of a dangerous labyrinth within thirteen hours in order to save her little brother Toby from Jareth, King of the Goblins.

One-Hour Wargames Neil Thomas,2014-09-03 A fun and practical new approach to wargaming that lets you complete a game in about an hour—includes rule sets and scenarios for most popular periods. One of the biggest problems facing wargamers is finding the time to actually play. Most commercially available games require several hours to set up and see to a conclusion; some can even take a whole day or weekend to complete. Apart from time, lack of space can also keep wargamers from enjoying their favorite pastime. In One-hour Wargames, veteran gamer and rule-writer Neil Thomas has addressed both problems. Now it is practical to play a satisfying game in around an hour on a normal dining table or living room floor. The book contains 8 all-new sets of very simple rules for various periods—from Ancient to WW2—and thirty stimulating scenarios which can be played using any of them. All the rules and scenarios are intended to be played on a 3ft x 3ft battlefield. The rules only require a small number of miniatures, so this really is an ideal way for new gamers, or veterans trying a new period, to get started with minimal investment of time and money. Also ideal for a quick game in the evening with a friend. Also included are sections on campaigns and solo games.

Dragon Rampant Daniel Mersey,2015-12-20 Whether you're a nameless Dark Lord looking to conquer the known world, a Champion of Light holding out against the forces of evil or a Northern barbarian facing claimants to a stolen throne, Dragon Rampant allows you to bring those battles to the tabletop. Developed from the popular Lion Rampant system, Dragon Rampant is a standalone wargame that recreates the great battles of Fantasy fiction. Scenarios, army lists, and full rules for magic and monsters give players the opportunity to command unruly orc warbands, raise armies of the undead, campaign across an antediluvian world as the warchief of a barbarian tribe, or exploit the power of mighty creatures and extraordinary sorcery. An army usually consists of 6-8 units comprised of 6-12 individually based figures. These small units move and fight independently, assuming that they follow your orders rather than just doing their own thing. Command and control is just as important on the battlefield as the power of a troll chieftain or the magic of an archmage.

Life's Messy, Live Happy Cy Wakeman,2022-03-29 A simple shift in thinking can change everything you believe about your own happiness. By the time we become adults, most of us have joined the religion of suffering, which preaches that unless circumstances are controlled, life will be a mess. We compare ourselves to others and speculate about an impossible-to-know future, holding out hope for an improved life through getting ahead, fulfilling passion, or finding true love. But the idea that happiness comes from putting effort toward altering one's circumstances is harmful and backward. What if we instead learned to understand that circumstances can rarely be controlled, and that life is, and always will be, messy? From that starting point, we could learn to use our minds to create happiness despite life's ever-changing circumstances and events. *Life's Messy, Live Happy* by Cy Wakeman is about dramatically changing the level of happiness you feel in your daily life, by learning to disconnect happiness from external forces, stop worrying about the future, and realize that most of your negative feelings are about things that never even happened. Wakeman is a credible, relatable teacher—a business owner, mother, and community member who has lived her philosophy and achieved profound happiness and success in a crazy, messy life. Filled with concrete daily practices and true stories that are hilarious, painful, and poignant, this book will change everything: your perspective, your focus, and your energy level for everyday life.

Star Wars: the Jedi Mind Amy Ratcliffe,2020 The philosophical tenets that inform the Jedi Code are focused on peace, knowledge, serenity and harmony, and are applicable not just in the galaxy far, far away, but also in our own galaxy, here and now. This accessible pop culture spin on mindfulness takes lessons from Star Wars-based in character statements and quotations-and briefly illuminates and expands on them (in a few sentences to a paragraph) to illustrate how readers might apply them to their own lives--
