## **Monster Hunter International, Second Edition**

Larry Correia, 2015-05-13 Contains an all-new afterword by New York Times best-selling author Larry Correia! Welcome to Monster Hunter International. Five days after Owen Zastava Pitt pushed his insufferable boss out of a fourteenth story window, he woke up in the hospital with a scarred face, an unbelievable memory, and a job offer. It turns out that monsters are real. All the things from myth, legend, and B-movies are out there, waiting in the shadows. Officially secret, some of them are evil, and some are just hungry. On the other side are the people who kill monsters for a living. Monster Hunter International is the premier eradication company in the business. And now Owen is their newest recruit. It's actually a pretty sweet gig, except for one little problem. An ancient entity known as the Cursed One has returned to settle a centuries old vendetta. Should the Cursed One succeed, it means the end of the world, and MHI is the only thing standing in his way. With the clock ticking towards Armageddon, Owen finds himself trapped between legions of undead minions, belligerent federal agents, a cryptic ghost who has taken up residence inside his head, and the cursed family of the woman he loves. Business is good . . . At the publisher's request, this title is sold without DRM (Digital Rights Management). Lexile Score: 710

At the Crossroads of Sahelian Conflicts Savannah de Tessières, 2018 In addition to an analysis of the types of armed violence that prevail in Niger, including terrorism, communal conflict, and armed banditry, this Report examines arms trafficking in the country and the illicit possession of weapons by civilians, as well as by armed entities and terrorist groups. The Report also provides an overview of the responses to insecurity in Niger by the national authorities, their international partners, and non-state actors, and discusses the main impacts of insecurity on the country. Finally, the Report also includes an Annexe listing all illicit small-calibre ammunition documented by the Small Arms Survey in Niger in 2016 and 2017, the type of armed actors from which

it was seized, and information regarding where else in the Sahel it is also in use, shedding significant light on trends in the illicit movement of military materiel in the region.

**Firearms** Kenneth Warren Chase, 2003-07-07 This book is a history of firearms across the world from the 1100s up to the 1700s, from the time of their invention in China to the time when European firearms had become clearly superior. *Servants of War* Larry Correia, Steve Diamond, 2022-03-01 NEW MILITARY FANTASY FROM THE CREATOR OF MONSTER HUNTER INTERNATIONAL LARRY CORREIA AND MASTER OF HORROR STEVE DIAMOND The war between Almacia and the Empire of Kolakolvia is in its hundredth year. Casualties grow on both sides as the conflict leaves no corner of the world untouched. Illarion Glaskov's quiet life on the fringes of the empire is thrown into chaos when an impossible tragedy strikes his village. When he is conscripted into the Tsarist military, he is sent to serve in The Wall—an elite regiment that pilots suits of armor made from the husks of dead golems.

But the great war is not the only—or even the worst—danger facing Illarion, as he is caught in a millennia-old conflict between two goddesses. He must survive the ravages of trench warfare, horrific monsters from another world, and the treacherous internal politics of the country he serves. At the publisher's request, this title is sold without DRM (Digital Rights Management).

About Larry Correia: “Correia piles on the intrigue, action, and cliffhangers in the invigorating second Saga of the Forgotten Warrior epic fantasy. . . . Correia also weaves in elements that question the value of belief and the cost of giving authority to those who find more profit in preying on the weak. . . . Brisk fight scenes, lively characters, and plenty of black humor continue to make this series a real pleasure.” —Publishers Weekly

About Steve Diamond: “Residue will scare you—that’s its primary goal—but along the way it will touch you, shock you, make you laugh, make you cheer, and make you think. Horror has been waiting for Steve Diamond.” —Dan Wells

**Future Weapons** Kevin Dockery, 2007-12-04 On the battlefield, a soldier's best friends are his gun and his gear—because his life depends on them. But

And what will our nation's fighting men and women carry with them into battle? Future Weapons is a compendium of the weapons of war that may accompany our soldiers in the near and far future, as well as an insightful look at the soldier, sailor, and airman of today and tomorrow. **Throwing Fire** Alfred W. Crosby, 2002-04-08

Historian Alfred W. Crosby looks at hard, accurate throwing and the manipulation of fire as unique human capabilities. Humans began throwing rocks in prehistory and then progressed to javelins, atlatls, bows and arrows. We learned to make fire by friction and used it to cook, drive game, burn out rivals, and alter landscapes. In historic times we invented catapults, trebuchets, and such flammable liquids as Greek Fire. About 1,000 years ago we invented gunpowder, which accelerated the rise of empires and the advance of European imperialism. In the 20th century, gunpowder weaponry enabled us to wage the most destructive wars of all time, peaking at the end of World War II with the V-2 and atomic bomb. Today, we have turned our projectile talents to space travel which may make it possible for our species to migrate to other bodies of our solar system and

even other star systems.
