MANDEM Eddie Kwadjo Danso,2010-12-30 The Japanese have the Yakuza's, the Italians have the Mafia, the Chinese have the Triads and the Jamaicans have the Yardies. Brace yourself for London's addition to gangsterism. They are slick, they enjoy the most expensive things in life and they walk around 'strapped'. Not a lot of their vocabulary can be found in the Oxford dictionary and if smoking weed was an Olympic sport 95% of them would be walking around with the gold. Emerging from the inner cities of London; ladies and gentlemen, ballers and crawlers, pimps and pimpettes, playas and playettes; I present to you none other than the MANDEM.

Bugatti Type 57 Grand Prix Neil Max Tomlinson,2015-09-01 This work examines the Type 57 Grand Prix cars, the creation of Jean Bugatti, Ettore's eldest son. The late Hugh G Conway wrote in Bugatti - Le pur sang des automobiles, that, after 1935, 'Bugatti's racing programme became involved and very confusing to the humble historian, without accurate factory records.' The T57G's story is complex and has taken more than forty years to draw together, study and evaluate. Revealing new material, Tomlinson takes the view that existing records can be reinterpreted with a revised mindset, challenging conformist beliefs and dismissing many conventions. The book describes the 57G's racing career and evolution through its siblings, the Types 57, 57S and 59. Type 57G characteristics are identified, with race-to-race body and chassis details described, and the Type 57G, 57S45, 57 'Sport' and 57C Le Mans cars are defined, and their enigmatic history revised. This book celebrates the Bugatti T57 Grand Prix racing cars: their origins, triumphs, failings, trivia, trinkets, and a little about the personalities behind them, interwoven with the social and political influences of those times.

The 'Schlumpf affair' is perhaps one of the most famous stories in the car collectors world, covered extensively by the media in the mid-1970s, when the collection was seized by the trade unions and later by the French government. The Paper Time Machine Wolfgang Wild,2017-10-19 The Paper Time Machine is a book that will change the way you think about the past.It contains 130 historical black-and-white photographs, reconstructed in colour and introduced by Wolfgang Wild – creator and curator of the Retronaut

website. The site has become a global phenomenon, collecting images that collapse the distance between the past and present and tear a hole in our map of time. The Paper Time Machine goes even further. Early photographic technology lacked a crucial ingredient – colour. As early as the invention of the medium, skilled artisans applied colour to photographs by hand, attempting to convey the vibrancy and immediacy of life in vivid detail. In most cases this was crude and unconvincing. Until now. The time-bending images in The Paper Time Machine have been painstakingly restored and rendered in full and accurate colour by Jordan Lloyd of Dynamichrome, a company that has taken the craft of colour reconstruction to a new level. Each element of every photograph has been researched and colour-checked for historical authenticity. Behold American child labourers from the early twentieth century, alongside the construction of the Statue of Liberty. Marvel at crisp photographs from the Crimean War in 1855, balanced with never-before-seen pictures from the Walt Disney archive. As the layers of colour build up, the effect is disorientingly real and the decades and centuries fall away. It is as though we are standing at the original photographer’s elbow. This is a landmark photographic book – a collection of historical ‘remixes’ that exist alongside the original photographs but draw out qualities, textures and details that have hitherto remained hidden. Let The Paper Time Machine transport you. It is as close to time travel as we are ever likely to get.
