Fiat & Abarth 500 & 600 Malcolm Bobbitt, 2016-08-14 Available again after a long absence!

Always big on character and charm, Fiat's little cars played an important international roll in providing affordable and practical private transport for millions who had previously thought their dream impossible. With particular emphasis on the now classic 600 and Nuova 500 cars, this book tells the full story of these 'baby' Fiats. Built, and exported to, many countries outside of the marque's native Italy, over 6.5 million Topolinos, 600s and Nuova 500s were sold, and an amazing number survive to this today. Also covered are the wonderful models built on these cars' tiny chassis by Italy's leading coachbuilders, and the motorsport success achieved by the Abarth versions of the little cars that everybody loves.

Lancia Hyena Zagato Maurizio Grasso, 2016-05-15 We have to recreate the enthusiasm that surrounded the SPORT models, ever a synonym for the Lancia Zagatos: in 1991 this was the brief the recent graduate Andrea Zagato gave to Marco Pedracini, a young designer who had not long been hired by prestigious coachbuilder. It was out of this fortuitous and fortunate coming together of this far-sighted idea and the enthusiasm of Paul Koot, a Dutch fan and a businessman in the automotive sector, that an icon was born, the HYENA. A beautiful car, but one practically unknown to the general public. A car that could have repeated and even surpassed the commercial and sporting success of the Lancia Delta Integrale from which it was derived. Unfortunatley just 24 examples were produced due to the debateable decision taken by the Fiat/Lancia directors of the time. Following a rapid review of the evolution of the Lancia Delta over the year, this book, written by an enthusiastic collector, examines the difficult genesis of the Hyena, from the first steps with the publication of the very first (previously unpublished) sketches and numerous photos and then follows its development, engineering and production through to its presentation at the car shows and in brochures. The book is completed by a comprehensive technical section, with the project list and the spare parts catalogue as well as an extensive photographic portrait of one particular example, N. 20. Lastly, all 24 Lancia Hyenas are examined, with the intention of reconstructing their specifications, their destination and the country in which they are jealously conserved by the enthusiast and collectors who possess a precious example.

Fast Forward Gestalten, Robert Klanten, Maximilian Funk, Jan Baedeker, 2017 Futuristic, utopian, eccentric and always ahead of their time: Fast Forward tells the story of concept cars - from the 1930s to today.

Ferrari Fever Marc Sonnery, Paul F. Schouwenburg, 2014-01-31 Ferrari Fever is a fascinating and

nostalgic look back at the classic car collecting scene in the 60's and 70's, an era when some of the rarest and most interesting Italian automobiles could still be found hidden or languishing in barns, junkyards or by the side of the road...almost lost in time. Paul Schouwenburg's story begins in wartime occupied Amsterdam, a poignant backdrop to the hardships of the years to follow, when the appearance of any exotic Italian thoroughbred was a rare sight indeed. Fuelled by a fascination for all things mechanical, adventures on a Rudge bicycle and early experiences in his parents' succession of Rovers, Paul gains a burning passion for finding, restoring, and ultimately racing Italian cars. But these were not just any Italian cars -from the early 60s onwards, he begins to uncover several rare Alfas, from 1900CSS Zagato to Tipo 33/2, in addition to a host of very special Ferraris, including a 250GTO, 340 America Touring, 250 MM Vignale Berlinetta, 250GT SWB Competition/61 and 275GTB/C/LM, usually by word of mouth or tenuous rumour. Having acquired them, often many different models at a time, he would drive them home across Europe through snow storms, and restore them single-handedly in his spare time, full-time job as a world-leading head and neck cancer surgeon permitting! If that wasn't exciting enough, he would then race them, often winning, before moving on to the next irresistible project. Filled with rich anecdotes and rare insights into the colourful characters of the day, including Jacques Swaters and Rob de la Rive Box, Paul's passion and incredible drive make for exciting reading. Indeed this is a unique take, a look in the rear view mirror at a bygone era when gems could be found incredibly cheaply and enthusiasts took seat-of-the-pants decisions regarding many aspects of a hobby which was uncharted, innocent and simply not as commercial as today he couldn't even give away his 250 GTO at the time!

Pininfarina Luciano Greggio, 2018-07-31 The entire stylistic and industrial history of Pininfarina, a true bastion of the "Made in Italy" phenomenon, is contained in this book with its wealth of black and white and colour photos. For almost 90 years Pininfarina has been synonymous with Italian coachbuilding. Some of the most iconic cars in the history of not only Italian but also worldwide motoring have been clothed by a firm that has been recognised as the creator of true works of art.

Battista Farina, known as “Pinin”, was the master craftsman who in 1930 founded in Turin the “Società Anonima Carrozzeria Pinin Farina”. The quality and the beauty of his creations soon established the firm’s reputation and well before the outbreak of the Second World War it could boast magnificent bodies on Alfa Romeo, Lancia and Fiat chassis. 1947 saw the presentation of a milestone in the history of Italian design, the Cisitalia 202. Between the 1950s and 1990s the company produced iconic designs such as the Alfa Romeo Giulietta Spider and the “Duetto”, the Lancia Aurelia B24 and the Flaminia, the Fiat Dino Spider and the 124 coupé, not to mention the innumerable Ferraris bodied by the prestigious Turin firm that from 1952 had become Maranello’s coachbuilder of choice. Numerous 250 GTs, the 250 Le Mans, the 365 Daytona, the 308 GTB, the Testarossa and the 288 GTO are all Pininfarina-bodied Ferraris. This book recounts the most recent history of this giant of Italian car design with all the latest products realised in particular for the Asian market where the Pininfarina brand has an increasing presence. There is also a chapter devoted to Pininfarina Extra, a brand within the brand, which since 1986 has been taking a 360° approach to design. The full story of this iconic Italian design firm finally told in a single volume.

The Hanoverian Dimension in British History, 1714–1837 Brendan Simms, Torsten Rott, 2010-06-24 For more than 120 years (1714-1837) Great Britain was linked to the German Electorate, later Kingdom, of Hanover through Personal Union. This made Britain a continental European state in many respects, and diluted her sense of insular apartness. The geopolitical focus of Britain was now as much on Germany, on the Elbe and the Weser as it was on the Channel or overseas. At the same time, the Hanoverian connection was a major and highly controversial factor in British high politics and popular political debate. This volume was the first systematically to explore the subject by a team of experts drawn from the UK, US and Germany. They integrate the burgeoning

specialist literature on aspects of the Personal Union into the broader history of eighteenth- and early nineteenth-century Britain. Never before had the impact of the Hanoverian connection on British politics, monarchy and the public sphere, been so thoroughly investigated.

Zagato Luciano Greggio,2017-05-02 It was in 1919 that Ugo Zagato established Carrozzeria U. Zagato & C., a business that acquired great fame in just a few years among the numerous car manufacturers of the period, first of all Alfa Romeo, which entrusted the Milanese body stylist with designing and building the body of the unforgettable 6C 1750, as it did its 8C 2900 that appeared in the '30s. From then on, the famous marque became synonymous with style - not only in Italy - designing a series of masterpieces including the Lancia Aprilia Sport, the various Panoramic cars of the immediate post-war period, the Aston Martin DB4, the Alfa Romeo SZ and TZ, the Lancias Fulvia, Flavia and Flaminia and many more. From the '90s Zagato re-emerged as an atelier, designing small production run cars and sometimes one-offs for its wealthy clients. Luciano Greggio, the automobile historian, covers the fascinating story of this prestigious body stylist and has also written other books in the series as well as Zagato. The series, to be published soon, includes books on Touring, Bertone, Pininfarina, Giugiaro and Vignale & Ghia.

Blood Bank Tanya Huff,2008-05-06 The Blood books center around three main characters: Vicki Nelson, a homicide cop turned private detective, her former partner Mike Celluci, who is still on the force, and vampire Henry Fitzroy, who is the illegitimate son of Henry VIII and makes his living as a writer of bodice rippers. Not only are the three of them caught in a love triangle, but they are, time and again, involved in mysteries with a supernatural slant—from demons, to werewolves, to mummies—and

inevitably must join forces to solve crimes and defeat supernatural enemies. Now all of Tanya Huff's short stories about Henry, Vicki, and Mike are being released in this collection entitled Blood Bank. As an added bonus for fans of the TV series, Blood Bank includes the actual screenplay for Stone Cold, the episode Tanya herself wrote for the Blood Ties series along with a special introduction by Tanya, detailing her own experiences with the show.
