📖 **Ki-44 ‘Tojo’ Aces of World War 2** Nicholas Millman,2011-10-18 The 100th title of Osprey’s celebrated Aircraft of the Aces series covers a subject sure to be of interest to historians of World War II. The Ki-44 ‘Tojo’ was a fast-climbing, heavily armed point-defence interceptor that was used successfully in slashing hit-and-run tactics that caught Allied pilots by surprise. In the air defense role ‘Tojos’ pioneered the deployment of a unique 40 mm cannon, the firing system which had no cartridges but instead had the propelling charge contained in the base of the projectile. The Ki-44 was to be used by the JAAF in larger numbers in China than anywhere else. This exciting title from author Nicholas Millman brings the Ki-44’s role in the Pacific theatre to vivid life, accompanied by full color plates and archival photographs.

📖 **ACHTUNG-PANZER!** Heinz Guderian,1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian’s book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian’s classic book – used as a textbook by Panzer officers in the war – has an introduction and extensive background notes by the modern English historian Paul Harris.

📖 **NON-TERRITORIAL AUTONOMY AND DECENTRALIZATION** Tove H. Malloy,Levente Salat,2020-10-15 This volume describes and analyzes alternative and emerging models of non-territorial autonomy (NTA), particularly in relation to decentralization. The authors push the NTA debate in new directions by offering a re-conceptualization based on ethno-cultural bottom-up decentralized action that redefines autonomy into its true sense of autonomous action. Through description, critical analysis, and evaluation of several case studies, this book assesses the potential for new paradigms within decentralized systems. The authors explore two approaches to political decentralization which add to the theoretical debate on NTA – network governance, which focuses on new dynamics in policy processes, and normative pluralism, which focuses on accommodating the distinctness of the groups through the subsidiarity principle with regard to their own affairs. The book explores the potential ramifications of ethno-cultural NTA institutions acting within the wider framework of state institutions and assesses the functions of these institutions as another dimension of decentralization and thus another ‘layer’ of democracy. With contemporary examples from Europe, the Middle East, Asia and South Africa, as well as theoretical aspects of the conceptualization of autonomy, this book offers a truly global perspective. It will be of great interest to policy-makers in countries experiencing adverse developments due to the pressure on public management, as well as advanced students and scholars questioning the ability of the Westphalian system to address cultural diversity.

📖 **MASONIC MONTHLY** ,1864

📖 **PLAYFUL USER INTERFACES** Anton Nijholt,2014-02-17 The book is about user interfaces to applications that have been designed for social and physical interaction. The interfaces are ‘playful’, that is, users feel challenged to engage in social and physical interaction because that will be fun. The topics that will be present in this book are interactive playgrounds, urban games using mobiles, sensor-equipped environments for playing, child-computer interaction, tangible game interfaces, interactive tabletop technology and applications, full-body interaction, exertion games, persuasion, engagement, evaluation and user experience. Readers of the book will not only get a survey of state-of-the-art research in these areas, but the chapters in this book will also provide a vision of the future where playful interfaces will be ubiquitous, that is, present and integrated in home, office, recreational, sports and urban environments, emphasizing that in the future in these environments game elements will be integrated and welcomed.

He claims they bombed an automobile factory to steal the plans of a highly advanced prototype, and that he took half of the plans and ran. 📖 **FM 3-13 INFORMATION OPERATIONS** Department Of the Army,2016-12 Information Operations (IO) creates effects in and through the information environment. IO optimizes the information element of combat power and supports and enhances all other elements in order to gain an operational advantage over an enemy or adversary. These effects are intended to influence, disrupt, corrupt or usurp enemy or adversary decision making and everything that enables it, while enabling and protecting friendly decision making. Because IO’s central focus is affecting decision making and, by extension, the will to fight, commanders personally ensure IO is integrated into operations from the start

📖 **DIGNENCE RENEWED** John Gardner,2012 Bond is back and he’s better than ever. . . but the 1980’s have reached the department as well. Political restraints are squeezing in on the service. The elite Double-O status, for example, conveying its authority to kill, is being abolished.

📖 **MAGGIE FOR HIRE** Kate Danley,2011-09-10 When monsters appear on Earth, Maggie McKay is on the job. No one is better at hauling the creepy crawlies back where they belong. No one, that is, except Maggie’s dad, who vanished in the middle of an assignment. Now, an elf named Killian has shown up with a gig. Seems Maggie’s uncle teamed up with the forces of dark to turn Earth into a vampire convenience store, serving bottomless refills on humans. Ah, family...
