Spaceport Earth Joe Pappalardo,2019-03-26 "Tackles the ever-changing, twenty-first-century space industry and what privately funded projects like Elon Musk's SpaceX mean for the future of space travel." –Foreign Policy
Creating a seismic shift in today's space industry, private sector companies including Elon Musk's SpaceX and Jeff Bezos's Blue Origin are building a dizzying array of new spacecraft and rockets, not just for government use, but for any paying customer. At the heart of this space revolution are spaceports, the center and literal launching pads of spaceflight. Spaceports cost hundreds of millions of dollars, face extreme competition, and host operations that do not tolerate failures—which can often be fatal. Aerospace journalist Joe Pappalardo has witnessed space rocket launches around the world, from the jungle of French Guiana to the coastline of California. In his comprehensive work *Spaceport Earth*, Pappalardo describes the rise of private companies and how they are reshaping the way the world is using space for industry and science. *Spaceport Earth* is a travelogue through modern space history as it is being made, offering space enthusiasts, futurists, and technology buffs a close perspective of rockets and launch sites, and chronicling the stories of industrial titans, engineers, government officials, billionaires, schemers, and politicians who are redefining what it means for humans to be a spacefaring species. "Private companies and rich people like Elon Musk and Jeff Bezos have taken over the exploration of space. Pappalardo explores this new sort of spacefaring at the outer reaches of business and technology." –The New York Times "For anyone obsessed with how spaceflight grew into what it is today, this book is a must-have."
–Popular Mechanics

Airborne Warfare James Maurice Gavin,2020-04-13 To every member of the 82nd Airborne Division who dropped as part of the American paratroop landings during World War Two, they breathed a little easier knowing their commander Jumpin' Jim Gavin would be jumping with them. General Gavin's paratroops drop-landed and fought in Sicily, Normandy on D-Day and during the abortive attempt to capture the Rhine bridges during Operation Market-Garden. He shared the risks of all his men parachuting into enemy territory, often only armed with his GI issue rifle.
