39/40m. Csaba Armoured Cars in World War 2 Peter Mujzer,2022-08-11 39.M
Csaba - a Hungarian armored reconnaissance vehicle of WWII. Csaba was a modern car for its time. The armament was mounted in a fully armored turret, and the armor was riveted from 9 mm plates. The car was powered by a Ford engine manufactured in Cologne, Germany, which provided good speed. The vehicle had two steering positions, front and rear.

M3A1 Scout Car David Doyle,2019-02-28 The M3A1 Scout Car, produced by White Motor Company of Cleveland, Ohio, served as the US Cavalry's primary scouting and reconnaissance vehicle during the early days of the US entry into WWII. A powerful Hercules engine, four-wheel drive, and relatively light weight gave the vehicle both impressive on-road speed and reasonable off-road maneuverability. Typically armed with a trio of heavy and light machine guns, the vehicle was not intended to slug it out with the enemy, but rather to locate the enemy and, through its impressive array of radio equipment, report the positions to more heavily armed forces. Through dozens of archival photos, including previously unpublished images, as well as details of some of the finest existing examples, this iconic vehicle is explored and its history is explained. Part of the Legends of Warfare series.

A Difficult Neighbourhood John Besemeres,2016-10-14 Through a series of essays on key events in recent years in Russia, the western ex-republics of the USSR and the countries of the one-time Warsaw Pact, John Besemeres seeks to illuminate the domestic politics of the most important states, as well as Moscow's relations with all of them. At the outset, he takes some backward glances at the violent suppression of national life in the 'bloodlands' of Europe during World War II by the Stalinist and Nazi regimes, which helps to explain much about the region's dynamics since. His concern throughout is that a large area of Europe with a combined population well in excess of Russia's could again be consigned by the West to Moscow's care, not this time by more and less malign forms of collusion, but by distracted negligence or incomprehension. 'This is a wonderful collection of essays from a leading Eastern Europe specialist. John Besemeres brings a lifetime of experience, profound insights, and an incisive style to subjects ranging from wartime and post-war Poland through contemporary Ukraine to Putin's Russia. At a time when doublespeak has become the new normal, his refreshing honesty has never been in greater need.' - Bobo Lo This publication was awarded a Centre for European Studies Publication Prize in 2015. The prize covers the cost of professional copyediting.

They trace these developments over ninety years of social, political, economic, and cultural upheaval and examine in detail the relationship between such communities and the majority nations in which they found themselves. The volume also follows changes in these groups' political and legal statuses.

The Pikeman's Lament Daniel Mersey, Michael Leck, 2017-01-26 Recreate the action and drama of 17th Century warfare on your tabletop with The Pikeman's Lament. Start by creating your Officer - is he a natural leader raised from the ranks, the youngest son of a noble family, or an old veteran who has seen too many battles? As you campaign, your Officer will win honour and gain promotion, acquiring traits that may help lead his men to victory. Before each skirmish, your Officer must raise his Company from a wide range of unit options - should he lean towards hard-hitting heavy cavalry or favour solid, defensively minded infantry? Companies are typically formed from 6-8 units, each made up of either 6 or 12 figures, and quick, decisive, and dramatic games are the order of the day. With core mechanics based on Daniel Mersey's popular Lion Rampant rules, The Pikeman's Lament captures the military flavour of the 17th Century, and allows you to recreate skirmishes and raids from conflicts such as the Thirty Years' War, the English Civil Wars, and the Great Northern War.

Patton R. P. Hunnicutt, 2015-05-15 This ambitious entry in R.P. Hunnicutt's 10-volume compendium of American tank history details the development of the Patton tanks, including the M60 series as well as other vehicles based on the tank chassis or employing other elements of the tank's design. First developed in the period between WWII and the Korean War, various iterations of the Patton armored military vehicle have served as a crucial component of American military operations in all manner of engagements. Hunnicutt spares no detail as he examines the origins and deployment of the M46 and M47 in the early days of the Cold War and for the duration of the Korean War. As the conflict escalated, increasing numbers of Patton tanks were deployed in Korea and many remained after the armistice to protect the tenuous agreement. Developed to replace the M47 Patton and M4 Sherman, the M48 Patton main battle tank boasted a variety of technical improvements and was relied upon heavily throughout the Vietnam War, with over 600 individual tanks deployed alongside U.S. forces during the war. Hunnicutt provides detailed technical information about these vehicles and their role in the U.S. Army and Marines. The M60 product-improved descendant of the Patton tanks and its many variations is also treated with exacting detail by Hunnicutt, who takes us through the numerous and important variations on the Patton design. Spanning the history of America's most widely used main battle tank, Hunnicutt's Patton is an absolute must-have for anyone interested in the history of the American military. Richard Pearce Hunnicutt (1926-2011) enlisted in the 7th Infantry Division in 1944 and in 1945 was promoted to sergeant and awarded the Silver Star for his heroic actions. After WWII, Hunnicutt earned a Masters in engineering from Stanford University under the GI Bill. In addition to being one of the most respected metallurgists in California, Hunnicutt wrote the definitive 10-volume history of the development and employment of American armored vehicles. As a tank historian and leading expert in the field, Hunnicutt was one of the founders of the US Army Ordnance Museum at Aberdeen Proving Ground, MD and was a close friend and frequent contributor to the Patton Museum at Fort Knox, KY.

The Turret Rose ,

Chosen Men Mark Latham,2016-12-15 *Chosen Men* is a set of fast-action skirmish rules detailing the bloody skirmishes between light troops in the Napoleonic Wars. The primary focus of the game is on soldiers and NCOs in light 'flank' companies, as they scout ahead of larger forces and take part in man-to-man actions against enemy skirmishers. Although the game allows for the formation of accurately sized companies of light infantry and cavalry if you wish, these formations are broken down into small groups of up to a dozen men. For the most part, officers are not swashbuckling super-heroes, but staunch commanders who rally and direct their men to achieve the battlefield objectives. Although the game uses an alternating action turn sequence, officers can use their influence on multiple units at the same time in an effort to steal the initiative. With all rolls resolved using standard 6-sided dice, this game combines a classic wargaming feel with modern wargame mechanics.

Thunder Run David Zucchini,2007-12-01 "A Pulitzer Prize-winning reporter provides a brilliant account of the harrowing drive into Baghdad by an American armor brigade." -Seattle Post-Intelligencer Based on reporting that was a finalist for the Pulitzer Prize, *Thunder Run* chronicles one of the boldest gambles in modern military history: the surprise assault on Baghdad by the Spartan Brigade, the Second Brigade of the Third Infantry Division (Mechanized). Three battalions and fewer than a thousand men launched a violent thrust of tanks and Bradley Fighting Vehicles into the heart of a city of five million people—and in three days of bloody combat ended the

Iraqi war. More than just a rendering of a single battle, Thunder Run candidly recounts how soldiers respond under fire and stress and how human frailties are magnified in a war zone. The product of over a hundred interviews with commanders and men from the Second Brigade, it is a riveting firsthand account of how a single armored brigade was able to capture an Arab capital defended by one of the world's largest armies. "The best account of combat since Black Hawk Down." —Men's Journal
