Fundamentals of Aircraft and Rocket Propulsion Ahmed F. El-Sayed,2016-05-25 This book provides a comprehensive basics-to-advanced course in an aero-thermal science vital to the design of engines for either type of craft. The text classifies engines powering aircraft and single/multi-stage rockets, and derives performance parameters for both from basic aerodynamics and thermodynamics laws. Each type of engine is analyzed for optimum performance goals, and mission-appropriate engines selection is explained. Fundamentals of Aircraft and Rocket Propulsion provides information about and analyses of: thermodynamic cycles of shaft engines (piston, turboprop, turboshaft and propfan); jet engines (pulsejet, pulse detonation engine, ramjet, scramjet, turbojet and turbofan); chemical and non-chemical rocket engines; conceptual design of modular rocket engines (combustor, nozzle and turbopumps); and conceptual design of different modules of aero-engines in their design and off-design state. Aimed at graduate and final-year undergraduate students, this textbook provides a thorough grounding in the history and classification of both aircraft and rocket engines, important design features of all the engines detailed, and particular consideration of special aircraft such as unmanned aerial and short/vertical takeoff and landing aircraft. End-of-chapter exercises make this a valuable student resource, and the provision of a downloadable solutions manual will be of further benefit for course instructors.

Recent Progress in Flow Control for Practical Flows Piotr Doerffer,George N. Barakos,Marcin M. Luczak,2017-05-11 This book explores the outcomes on flow control research activities carried out within the framework of two EU-funded projects focused on training-through-research of Marie Skłodowska-Curie doctoral students. The main goal of the projects described in this monograph is to assess the potential of the passive- and active-flow control methods for reduction of fuel consumption by a helicopter. The research scope encompasses the fields of structural dynamics, fluid flow dynamics, and actuators with control. Research featured in this volume demonstrates an experimental and numerical approach with a strong emphasis on the verification and validation of numerical models. The book is ideal for engineers, students, and researchers interested in the multidisciplinary field of flow control.

Building the Tatmadaw Maung Aung Myoe,2009-01-22 Ever since Myanmar regained her independence in January 1948, the Tatmadaw (Myanmar Armed Forces) has been crucial in restoring and maintaining law and order. It is one of the most important institutions in Myanmar politics. Various aspects of the Tatmadaw have been studied. The most notable area of study has been the political role of the military. This study looks at the organizational development of the Myanmar armed forces. It analyses four different aspects of the Tatmadaw: military doctrine and strategy, organization and force structure, armament and force modernization, and military training and officer education. It sets out security perceptions and policies, charting developments in each phase against the situation at the time, and also notes the contributions of the leading actors in the process. Since early 1990s, the Tatmadaw has implemented a force modernization programme. This work studies rationales and strategy behind the force modernization programme and examines the military capabilities of the Tatmadaw. Drawing extensively from archival sources and existing literature, this empirically grounded research argues that, while the internal armed security threat to the state continues to play an important role, it is the external security threat that gives more weight to the expansion and modernization of the Tatmadaw since 1988. It also argues that, despite its imperfections, the Tatmadaw has transformed from a force essentially for counter-insurgency operations into a force capable of fighting in limited conventional warfare.

The Military Balance 2014 International Institute for Strategic Studies,2014-01-24 This title contains region-by-region analysis of the major military and economic developments affecting defence and security policies and the trade in weapons. Detailed entries describe the military capabilities of 171 countries.

Duty and Desire Book Club Edition Anju Gattani,2021-01-27 To uphold family honor and tradition, Sheetal Prasad is forced to forsake the man she loves and marry playboy millionaire Rakesh Dhanraj while the citizens of Raigun, India, watch in envy. On her wedding night, however, Sheetal quickly learns that the stranger she married is as cold as the marble floors of the Dhanraj mansion. Forced to smile at family members and cameras and pretend there's nothing wrong with her marriage, Sheetal begins to discover that the family she married into harbors secrets, lies and deceptions powerful enough to tear apart her world. With no one to rely on and no escape, Sheetal must ally with her husband in an attempt to protect her infant son from the tyranny of his family.sion.

Governance and Civil Society in Myanmar Helen James,2005-03-21 Most international attention on Myanmar has focused on the political situation, where the military, in power since 1962, continues to refuse to acknowledge the results of democratic elections, and on related human rights issues. This book, by focusing on education, health and environment, and on the institutions which formulate and deliver policy in these fields, shows how the international community can make a significant difference to strengthening Myanmar's civil society and to supporting a future democratic form of government, by encouraging institutional developments in these fields. Such developments in turn, the author argues, will re-skill the younger generation, promote economic development and poverty alleviation, and, through a participatory approach to policy-making, nurture the conditions from which democracy will grow.

Burma's Armed Forces Andrew Selth,2002 Selth's book will become a standard reference work. [It] is an encyclopedic, nuts and bolts analysis of the modern-day Tatmadaw...updat[ing] our understanding of th[eir] increasingly modernized armed forces. Critical Asian Studies Selth's 25 years as a diplomat, strategic defence analyst, and academic has produced more subtle elements...[than a simple] confrontation between the movement for democracy and the all-powerful military, the Tatmadaw. John Graham, in The Canberra TimesThis book is essential reading for any student of Burma, security in the Asia-Pacific region, China-India relations, or military and strategic priorities in Asia and the world. The key to coming to grips with modern Burma is to understand the country's armedforces. Although it has dominated all aspects of Burmese life since the 1962 coup, there has been no comprehensive ordetailed study of the Tatmadaw as a military institution. Drawing on five years of research in Burma and beyond, including interviews with military specialists and commentators, Andrew Selth has written the first book on the inner workings of the Tatmadaw. Here is a scholarly and objective account of Burma's strategic posture, its defense policies and threat perceptions; its military doctrine, defense expenditures, arms acquisitions, and combat capabilities. Here are chapters on Burma's intelligence apparatus, and its suspected uses of chemical and biologicalweapons. Diagrams and maps illustrate the Tatmadaw's organization, structure, and order of battle.The authorpays particular attention to the dramatic expansion and modernization of the Tatmadaw since the 1988 pro-democracy uprising and the secret role that countries like China have played in this process. There are valuable insights into the way the armed forces have attempted to govern Burma over the past 14years, their internal disputes, and how they see their future role. Finally, the book examines how the Tatmadaw might cope with a democratic government coming to power in Rangoon.?This study is unique in the literature and it is evident that it will be required reading for anyone seriously concerned with Myanmar, the Southeast Asia region, and indeed with the relationships between India and China. It is not only those observers of the Burmese scene who are in Mr. Selth's debt, but also those

involved in the study of the military in various societies who can learn much from this important volume. There are lessons of Burma/Myanmar applicable in relation to policies in other multi-ethnic states, in economic development, and in civil-military relations. Mr. Selth has given us much to muse on beyond the borders of that unfortunate country?. from the Foreword by David I. Steinberg

I Have a Dog Charlotte Lance, 2014-05-01 I have a dog. An inconvenient dog. When I wake up, my dog is inconvenient. When I'm getting dressed, my dog is inconvenient. And when I'm making tunnels, my dog is SUPER inconvenient. But sometimes, an inconvenient dog can be big and warm and cuddly. Sometimes, an inconvenient dog can be the most comforting friend in the whole wide world.

Charles Pettigrew, First Bishop-Elect of the North Carolina Episcopal Church (Classic Reprint) Bennett H. Wall, 2018-08-14 Excerpt from Charles Pettigrew, First Bishop-Elect of the North Carolina Episcopal Church As soon as he received the news of his appointment, Pettigrew resigned his position in Bute County and moved to Edenton. He became a member of the Church of England about this time and obtained a position as lay reader of St. Paul's Church in Edenton. Since several members of the vestry of St. Paul's Parish were trustees of the academy, it is reasonable to assume that he had contacted these men and made known to them his desire to become a minister of the Church of England. Whether or not that View is correct, it is known that while occupying the positions of schoolmaster and lay reader he engaged in the studies expected of candidates for ordination in that church. In the spring of 1775 he sailed for London where he was duly ordained deacon and priest by the bishops of London and Rochester. Land of Jade Bertil Lintner, 2011 Provides poignant descriptions of the efforts of simple ethnic tribes-people to forge lives amid the larger struggles of political antagonists, drug lords, foreign interlopers and assorted other opportunists; a situation that remains painfully relevant to many in diverse locations to the present day. Bertil and Hseng Nung Lintner, and their baby daughter, born en route, spent one and a half years travelling through northern and eastern Burma, from 1985-87. Throughout their account, they describe, with rare and deep insight, the struggle by northern Burma's ethnic

The Dare Harley Laroux, 2023-10-31 Jessica Martin is not a nice girl. As Prom Queen and Captain of the cheer squad, she'd ruled her school mercilessly, looking down her nose at everyone she deemed unworthy. The most unworthy of them all? The freak, Manson Reed: her favorite victim. But a lot changes after high school. A freak like him never should have ended up at the same Halloween party as her. He never should have been able to beat her at a game of Drink or Dare. He never should have been able to humiliate her in front of everyone. Losing the game means taking the dare: a dare to serve Manson for the entire night as his slave. It's a dare that Jessica's pride - and curiosity - won't allow her to refuse. What ensues is a dark game of pleasure and pain, fear and desire. Is it only a game? Only revenge? Only a dare? Or is it something more? The Dare is an 18+ erotic romance novella and a prequel to the Losers Duet. Reader discretion is strongly advised. This book contains graphic sexual scenes, intense scenes of BDSM, and strong language. A full content note can be found in the front matter of the book.
