Alfa Romeo 105 Series Spider Jim Talbott,Andrew Brown,2019-10-21 The Alfa Romeo 105 series Spider is one of the most admired drop-head sports cars to come out of Italy. Launched in 1966, its radical new look was not immediately welcomed. As prospective buyers gradually warmed to the model, enhancements were introduced including more powerful engines and higher-spec body and interior fittings. Despite its inauspicious start, production of this much-admired car lasted for twenty-seven years, finally stopping in 1993. Jim Talbott and Andrew Brown pay homage to the 105/115 series Alfa Spider. With over 330 photographs, many specially commissioned, this new book describes the Alfa Romeo company history including its philosophy of incorporating driver appeal into all of its products, resulting in some of the most desirable vehicles of their age; it details the evolution of the 105/115 series through four distinct body styles; lists the technical design specifications and every major version of the Spider and finally, discusses the issues and challenges of finding and owning a classic Spider.

Automobiles by Architects Ivan Margolius,2000-04-06 It may seem extraordinary that architects - designers of stationary objects - should concern themselves with automobile design; but the automobile has long touched architects' imaginations, appearing to them as a house on wheels, as mobile accommodation. When the motor-driven vehicle was invented, architects recognised that its image, form and function would affect the quality of people's lives and their surroundings, and that to propose an automobile was a way to perfect the synthesis of art, design and the latest technology. A number of well-known architects liked to pair the architecture of their houses with their favourite automobiles in order to illustrate the close functional and aesthetic relationship between them. Some believed that their cars had to 'look becoming to' their architecture, and included automobiles in perspective views and photographs of their completed buildings, the result being a harmonising composition of the two elements that stressed their close affinity. The celebrated 'Ten Automobiles' exhibition at the Museum of Modern Art, New York in 1953, with its proclamation that 'automobiles are twentieth-century artefacts', brought into focus the automobile as an influential design object. Architects realised the importance of the automobile as an icon of an era and sought not only to design motorcars but to apply the principles of automotive technology and design to their architecture. This book explores automotive design by leading architects such as Frank Lloyd Wright, Le Corbusier, Walter Gropius, Marcel Breuer, Adolf Loos, Richard Buckminster Fuller, Gio Ponti, Carlo Mollino, Norman Foster, Jan Kaplicky and others and its influence on their architecture.

The Old Weird Albion Justin Hopper, 2017 A woman stands at the edge of a cliff, looking out to sea and the horizon. Dancers welcome the sun in a circle of stones. A dowsing road turns without warning. A church bell. Footsteps. Old Weird Albion is America writer Justin Hopper's dark love song to the English South; a poetic essay interrogating the high, haunted landscape of the South Downs Way; the memories, myths and forgotten histories from Winchester to Beachy Head. When someone disappears, when someone leaps from a cliff and is all-but-erased from memory, what traces might we find in the crumbling chalk of the cliff face; in the wind that buffets the edge of this Albion? A skewed alternative to Bill Bryson, Hopper casts himself as the outsider as he wanders the English countryside in pursuit of mystical encounters. His journey sees him joining New Age eccentrics and accidental visionaries on the hunt for crop circles and druidic stones, discussing the power of nature with ecotherapists and pagans, tracing the ruins of abandoned settlements and walking the streets of eerie suburbs. Through a startling revelation of his own family history, Hopper turns part detective, part memoirist, tracking the footsteps of his grandfather's first wife, Doris; piecing together her forgotten history.

Lotus 72 Pete Lyons, 2019-03-26 This book, the first in Evro's new Formula 1 Greats series, covers one of the most revered Formula 1 cars ever made. Introduced in 1970, the wedge-shaped Lotus 72 competed for six seasons, winning 20 World Championship Grands Prix, two Drivers' titles (for Jochen Rindt in 1970 and Emerson Fittipaldi in 1972) and three Constructors' titles (in 1970, 1972 and 1973), racing first in Lotus's evocative red, white and gold livery, then the equally eye-catching black and gold of the John Player Special period. Pete Lyons, Autosport's renowned Formula 1 reporter for part of the Lotus 72 era, explores the car's entire race-by-race career in his insightful commentary accompanying a magnificent array of more than 300 photos. The 1970 season: after troubled early development, the 72 finally took over from the long-serving 49, its four consecutive race wins enough to secure the World Championship for Jochen Rindt, posthumously after his death during practice for the Italian Grand Prix. The 1971 season: with promising youngster Emerson Fittipaldi elevated to team leader after Rindt's death, great things were expected of the 72's second season but it proved to be winless. The 1972 season: now in black and gold John Player livery, the 72 became far more competitive and Fittipaldi's four Grand Prix victories made him World Champion. The 1973 season: Ronnie 'SuperSwede' Peterson joined Fittipaldi to form a dream team and together they won seven races, but because Lotus's spoils were divided between the two drivers Jackie Stewart was able to come through to become World Champion. The 1974 season: still the 72 soldiered on, now as the fall-back car after its successor, the 76, failed to deliver; partnered by Jacky Ickx, Peterson won three Grands Prix. The 1975 season: well beyond its sell-by date, the 72 did a final season but by now it was far from effective, with Ickx's second place in the tragic Spanish Grand Prix its best result.
