Ford GT Larry Edsall,2004 35 years after winning at Le Mans, Ford have decided to put the limited edition GT into production. This book explores both the development and design of the GT, as well as the race history of the car that inspired it - the original GT40.

Ford GT Preston Lerner,2015-09-10 Get the whole story on the car built to beat the world--Ford's GT. Henry Ford II, the Deuce, wanted a race car capable of winning top-flight sports car events in Europe. Specifically, he wanted to win Le Mans. Ford learned that Enzo Ferrari would consider selling his company and negotiations quickly ensued. But after Ford spent considerable time and money reviewing Ferrari's operations and negotiating with Enzo, Ferrari abruptly backed out of the talks. The Deuce took Ferrari's actions as a personal insult. Word was sent down from on high: beat Ferrari. Ford settled on UK-based Eric Broadley's Lola GT, a cutting-edge car that featured a mid-engine chassis and small-block Ford V-8 power. The Lola GT would morph into the Ford GT. Carroll Shelby helped shape it into the Mark II GT40. The result was one of the most legendary wins in racing history: Ford's 1-2-3 sweep of Le Mans in 1966. Ford GT celebrates the 50th anniversary of Ford's iconic victory, providing the detailed back story leading to that historic win, as well as the follow-up win in 1967. The GT40's last two competitive seasons in 1968 and 1969 are also covered, for a complete view of this remarkable era in racing. Author Preston Lerner details the ups and downs of Ford's GT program, accompanied by Shelby American photographer Dave Friedman's historic images. Come re-live one of the most exciting stories in all of racing history!

Shelby GT40 Dave Friedman,2006 The ultimate book about the Shelby GT program, updated to reflect the history and legacy of the GT40 victories, with interviews, anecdotes, and peerless pictures.

Ford GT Adrian Streater,2006

Ford GT40 Mk II Mark Cole,2018-04-17 This book tells the story of Ford GT40 Mark II, chassis no. P/1016, one of the trio of cars that crossed the finishing line together at Le Mans in 1966 to score Ford's first victory in the 24 Hour race. The Mark II was a development of the original Ford GT with a monstrous 7 litre V8 engine. 1016 made its racing debut at Daytona in January 1966 and was entered at Le Mans by Holman & Moody with a distinctive gold and pink color scheme. Driven by Ronnie Bucknum and Dick Hutcherson, it finished in third place behind the similar cars of Bruce McLaren and Chris Amon and Ken Miles and Denny Hulme.

The Ford GT ,2004 In the 1960's very little science and engineering had been applied to the art of motor racing. As a result, there was no general agreement about the best technical approach to generating speed on a road racing track. Each car maker viewed the problem through the lenses of their own history and capabilities. The cars on the starting grid demonstrated how varied these histories were. When Ford first assaulted Le Mans in 1964, the company followed a similarly casual approach by initially purchasing a race car design from the English firm Lola. This car's numerous shortcomings soon led Ford to apply its considerable engineering and developmental resources to the project, and the result was the one-two-three finish in 1966. First place finishes followed in 1967, 1968 and 1969. It is the fabulous victories by Ford in the 1960's that inspired the new 2005 Ford GT. Based on a concept car the new production car embodies the characteristic proportions and styling elements of the original GT. Under its skin, however, it has little in common with the original other than its mid-engine layout. The 2005 Ford GT must function as a street car, with a climate control system, moderate interior noise levels, a reasonable ride, and the ability to operate in extremes of hot and cold. The seven original SAE papers from the 1960's contained in this book provide a wonderful insight into the development of the original Ford GT, during what many consider to be the technically most interesting period of sports car racing. The 11 SAE papers about the new GT included in this volume explain how Ford engineers managed to meet numerous modern-day requirements while staying true to the spirit of the original.

The Ford that Beat Ferrari John Allen,Gordon Jones,2019-12-03 After Ford unsuccessfully attempted to buy Ferrari, in 1963, the American car giant instead embarked on its own racing programme in a bid to beat the famous Italian marque at the world's most prestigious race, the Le Mans 24 Hours, as told in the forthcoming Hollywood movie Ford v. Ferrari. This updated edition of *The Ford that Beat Ferrari* tells the story of how that mission was eventually accomplished. Development of the GT40: how the prototype Ford GT emerged in 1964 from the previous year's Lola GT programme. The works teams and the GT40: the car's racing exploits in its earlier years, first with Ford Advanced Vehicles (1964), then Shelby American (1965) and Alan Mann Racing (1966). The big ones: this section of the book covers the GT40's evolution into the 7-litre monsters that brought enormous success, including the first two Le Mans victories with the Mark II (1966) and Mark IV (1967), before becoming outlawed by new restrictions on engine size. The Gulf years: against all expectations, the venerable GT40, now back to 5-litre power, raced on with John Wyer's crack JW Automotive Engineering outfit in the iconic blue and orange colours of Gulf, successes including two further Le Mans wins (1968 and 1969). The production line racer: the stories of the 68 privateers, big and small, who raced GT40s. Chassis and drivers: a data section giving resumés of type designations, chassis histories and all drivers who raced GT40s. The magic lives on: the book's concluding sections show surviving cars at differing stages in their later life and bring the story up to date with developments since the 2005 edition.

A Big Ask David Phillips,2016-12-11 The inside story of Ford Motor Company's return to the 24 Hours of Le Mans world famous sports car race in 2016, as told by a veteran motorsports journalist. Includes more than 100 color images by top racing photographers.

Ford That Beat Ferrari John S. Allen,1985-08-01

Ford GT40 Trevor Legate,2002-01 A definitive history of Ford's Ferrari-beating GT40 sports racing car.

Ford GT40 Ray Hutton,2018-02-06 This sumptuous book tells the story of one of the world's most important racing cars. Always raced in Gulf's iconic blue-and- orange colours, this Ford GT40, known by its chassis number '1075', won the Le Mans 24 Hours not just once but twice, in 1968 and 1969, and the second victory came after the closest fight ever seen at the finish of this great endurance race. Four other championship wins – at Brands Hatch, Spa, Watkins Glen and Sebring – add to this GT40's distinction as the very best of its breed, driven by 'greats' such as Jacky Ickx, Pedro Rodríguez and Brian Redman. The car's entire competition life is covered in fascinating detail, together with biographies of its drivers and insights into John Wyer's crack team that ran it, all supported by a fine collection of period photographs.

Ford GT40 Owners' Workshop Manual Gordon Bruce,2014-09-01 The Ford GT40 is one of the most famous of all sports racing cars. Built by Ford to challenge the supremacy of Ferrari at Le Mans, the GT40 first raced in 1964, and went on to win Le Mans four times in a row, from 1966 to 1969. Here, in this Haynes Manual, is a unique perspective on what it takes to own, restore and maintain a GT40, as well as an insight into the engineering and construction of this legendary racing car.

GT 40 Ronnie Spain,2003-07 In the 1960s the Ford Motor Company decided to enter the arena of sports car racing and challenge the European manufacturers, specifically Ferrari, for supremacy. The result was the GT40, and by

the mid-1960s the car was posting victories at the most prestigious sports car endurance racing events around the world. In this comprehensive history of Ford's GT40, Ronnie Spain describes the development of the marque and features chassis records and photos of each and every car built. Comprehensive race records provide a year-by-year account, from the GT40's first ventures in 1964 through 1970. Original 1986 hardcover edition ISBN 1-85532-268-4

Ford That Beat Ferrari John Allen, 2006-01 When Ford's attempt to buy Ferrari fell through, the US car giant embarked on a program to beat the famous Italian marque at the world's most prestigious race, the Le Mans 24 Hours. It was quite a battle. Ford's challenger was the GT40, which placed 1-2-3 at Le Mans in 1966 and won the next three consecutive years. This classic book about the GT40 fastest sports racing car of its day has been redesigned, expanded and updated to meet pent-up demand that has pushed the value of the original 1985 edition higher and higher.

Ford GT40 & GT Ultimate Portfolio 1964-2006, 2007-05-01 Henry Ford, having been rejected by Ferrari, vowed to beat him on the race tracks of the world. It was the spark that ignited what was probably the most exciting era in Ford's history which began in 1964. When released in Dearborn the GT40 was probably the prettiest racing car ever designed up to that time. It looked sensational and was undoubtedly very fast, but its aerodynamic performance left much to be desired, as did its reliability. It failed to finish in such events as the Nurburgring 1000 kms, Le Mans 24-hour and the Nassau Tourist Trophy, but Ford regarded these outings as part of the learning curve. In 1966 came the much modified Mark 2 version and with this car success started to come Ford's way. Henry Ford's dream was realized when the three surviving GT40s finished 1-2-3 at Le Mans. Although the GT40 continued to be raced after the 1967 season, it was with private teams rather than from Ford itself, where it became a legend in its own lifetime.

Go Like Hell A J Baime, 2011-08-31 Coming to cinemas in November 2019, under the title LE MANS '66 _____ In the 1960s Enzo Ferrari emerged as the dominant force in sports cars in the world, creating speed machines that were unbeatable on the race track. In America, the Ford Motor Company was quickly losing ground as the pre-eminent brand. Henry Ford II saw a solution. He decided to declare war on Ferrari, to build a faster car than anything Ferrari had brought to the track, and to beat him at the world's biggest race, Le Mans. Ferrari was just as determined to see off this challenge from across the Atlantic. With practically no safety regulations in place in the European Grand Prix races, horrific accidents were routine, with both drivers and spectators killed in many races. The stakes were incredibly high, money and men were thrown at the competition, neither Ford or Ferrari would accept anything but victory. The battle to become the fastest in the world truly became a race to the death.

Ford GT40 John S. Allen, 1991 Text covering the history of a sports car designed in the 1960s to compete successfully against Ferrari and Chevrolet in the World Championship. The author has spent over 20 years photographing the GT40 which since its debut has won the Le Mans race twice.

The Original Ford GT 101 Heuvink, Ed, 2016

Ford GT40 John S. Allen, 1983

Ford GT40 David Hodges, 1997-11-26 Many argue that the Ford GT40 is the classic racing car of its era, conceived to rewrite the rulebook at LeMans by taking on -- and beating -- the hitherto all-dominant Ferraris. In this expanded edition, the author recalls the GT40's six epic seasons of racing and the legacy that it left on international motorsports. All-new contemporary color photography is complemented by painstakingly researched GT40 documentation, including: -- Ownership and identification records for each individual car -- A race record listing the fate of all GT40s entered in major events -- Technical specifications for the six main variants of the GT40 theme -- A chronicle of GT40s built and kitted out to be driven on the road -- models which are today among the most valuable of exotic sports cars The GT40 represents a significant chapter in what many race fans consider the golden age of postwar auto racing. This is the GT40's story of fierce competition, dedication, tragedy, and, ultimately, of complete and repeated success.
